

"Colour Detail" Function allows users to smooth over skin tones.

Flexible Installation - Ceiling Mount or Flat Surface

Because the BRC-Z700 has an "Image Flip" function, the unit can either be mounted on a ceiling using the supplied ceiling mount kit or placed on a flat surface to meet the user's installation and space requirements.

Easy-to-use and Ergonomically Designed Remote Control Unit

All camera settings, including the Pan/Tilt/Zoom functions and sixteen preset patterns, can be controlled from the optional RM-BR300 Remote Control Unit. The ergonomic joystick design and feature-rich control

panel provide superb operability in various remote-shooting applications.

High Performance Pan/Tilt/Zoom Mechanism

The BRC-Z700 covers a wide shooting range with its highly accurate Pan/Tilt mechanism. It has a very wide pan range of 340 degrees and a tilt range of 120 degrees. Both pan and tilt speeds are variable within the range of 0.22 to 60 degrees per second.

What's more, the BRC-Z700 has an extremely quiet motor that is capable of very precise movements. It is capable of capturing not only fast-moving objects, but also slow-moving objects without rocking vibration. For capturing small or distant objects, the BRC-Z700 incorporates a 20x optical auto-focus zoom lens.
