Guide to Wireless Network Security John R.

Vacca,2006-10-16 1 INTRODUCTION With the increasing deployment of wireless networks 802 11 architecture in enterprise environments IT enterprises are working to implement security mechanisms that are equivalent to those existing today for wire based networks An important aspect of this is the need to provide secure access to the network for valid users Existing wired network jacks are located inside buildings already secured from unauthorized access through the use of keys badge access and so forth A user must gain physical access to the building in order to plug a client computer into a network jack In contrast a wireless access point AP may be accessed from off the premises if the signal is detectable for instance from a parking lot adjacent to the building Thus wireless networks require secure access to the AP and the ability to isolate the AP from the internal private network prior to user authentication into the network domain Furthermore as enterprises strive to provide better availability of mission critical wireless data they also face the challenge of maintaining that data s security and integrity While each connection with a client a supplier or a enterprise partner can improve responsiveness and efficiency it also increases the vulnerability of enterprise wireless data to attack In such an environment wireless network security is

becoming more important every day Also with the growing reliance on e commerce wireless network based services and the Internet enterprises are faced with an ever increasing responsibility to protect their systems from attack *The Hitchhiker's Guide to Going Mobile* Arthur Goldstuck,2006 The Hitchhiker s Guide to Going Wireless quickly established itself as the essential guide to mobile technology in South Africa Going Mobile starts where Wireless left off and shows how the vision for the future is becoming a reality today Wireless talked about the future high speed wireless technology called WiMax and already WiMax services are being offered commercially The future is rushing up on us so fast that the time for a new edition of the Hitchhiker s Guide is now As in Wireless we ask the critical questions What does it all mean Where is it all going How do ordinary people tap into this communication revolution Here is a guide that once again catches the wave of interest and activity that taps into the buzz and also sets the mobile agenda for ordinary people and businesses throughout South Africa

Community Based Disaster Management 8: Shelter Equipment Use & Management Dr. Antony Gnanamuthu,2025-11-01 Dr Antony Gnanamuthu who has worked with the target communities vulnerable to cyclone first responders and been a practitioner in the field of disaster management He has worked diligently in Asia Africa and Europe at international levels in this field He has developed this book on the basis of his experiences in disaster prone Indian State of Odisha as well as his experience while working with various countries in the three continents Asia Africa and Europe His own research in implementing Community Based Disaster Risk Management on community aspects of disaster management as well as use of policy initiatives and technology developments has been the basis on which he has further developed the basic themes of this book training manuals from community preparedness perspective as a bottom up approach As Program Director he brought this work with a large number of new ideas and initiatives which were innovative in nature and were put to practice during the period 2005 2009 while implementing the Odisha Disaster Mitigation Program ODMP funded by Federal Republic of Germany through KfW with Government of India through Odisha State Government Indian Red Cross Odisha State branch is even now being practiced by the Odisha Disaster Management Authority in all the Shelter communities across Coastal Odisha This initiative has reduced the loss of life to almost nil through proper planning and coordination with various relevant stake holders in a bottom up approach as in Village Disaster Management Plan VDMP connecting the target population with the Government officials at Panchayat Block Thasil and District level This community based initiative is now being practiced in various developing countries by mobilizing the target communities as first responders in case we are to achieve the benchmarks set and accepted globally relating to the Sendai Framework and other global mandates The key take away is that this model of mobilizing the target communities as first responders given the nature of the hazards and risks natural and human made with which we are facing now and in the future There are plenty of ideas put forward by Dr Antony Gnanamuthu which can be the basis for further policy and strategy development and actions This book training manuals right thinking people and concerned strategies and practitioners find new vistas of public action in India and in the disaster prone

areas around the world This community mobilization can be practiced and has significance for any country around the world having disaster prone areas The recommendations are equally relevant for any other country as well and as such the ideas also have an international significance *China Telecom Monthly Newsletter October 2010* , **Programming Java 2**
