Breaking Away from the Textbook: Prehistory to 1600 Ron H. Pahl, 2002 *Breaking Away from the Textbook* Ronald Hans Pahl, 2010-10-16 Teaching history should not be reciting an endless list of dead men entombed between the covers of a textbook. Instead, *Breaking Away from the Textbook* offers a fascinating journey through world history. Not a comprehensive theory-heavy guide, this book focuses on active classroom activities, methods for students to grapple with humanity's issues, and innovative ways to show students the relevance of the past to the world today. Simply put, this book makes world history fun. Soon, your students will be busy debating, thinking, applying, and learning about information that will stay with them for a lifetime. The key to this wonderful work is its incorporation of various disciplines, including art, music, and writing, to create a fun and active classroom. Volume I covers prehistory to the Renaissance, and Volume II covers the Enlightenment to the 20th century. Includes pictures and drawings, appendices, indexes, maps, and a bibliography. Volume III, *More Creative Ways to Teach World History*, covers ancient times through the 20th century and beyond. Appropriate for all grade levels.

Comparative Religion Carla Mooney, 2015-10-19 Over 7 billion people live on the earth, and 84 percent of them describe themselves as being religious. Few topics incite such passion as religion. What does that mean? Why are humans invested in ideas that may never be proved? Why has religion played such an important role in history? In *Comparative Religion: Investigate the World through Religious Tradition*, readers seek answers to these questions by comparing and contrasting the cultural, spiritual, and geographical underpinnings of five different religions. By developing a better understanding of the similarities and differences among religions of the world, readers gain a strong foothold in a dialogue that has continued for thousands of years. Combining hands-on activities with theology, history, geography, world cultures, art, and architecture, *Comparative Religions* encourages deeper understanding of the world's religions. Entertaining graphic art, fascinating sidebars, and links to primary sources bring the topic to life, while key questions reaffirm foundational concepts. Activities include conducting an interview with a rabbi, comparing the story of Abraham and Isaac in three sacred texts, studying the architecture of the National Cathedral in Washington, DC, studying the Hindu practice of yoga and meditation, and examining how religious doctrines shape the behavior of believers.

Buddhism Between Religion and Philosophy Rafal K. Stepień, 2024 N g rjuna is the most influential of all Buddhist thinkers following the Buddha himself. Throughout his works, N g rjuna calls on us to completely abandon all our views. But how could anyone possibly do that? This book shows not only how N g rjuna's truly radical teaching of abelief makes perfect sense within his Buddhist philosophy, but how it stands at the summit of his religious mission to care for all living beings. Rather than treating any one aspect of N g rjuna's ideas in isolation, here he emerges as forging a single system of thought and practice, one that challenges the very ways in which we think about religion and philosophy.

Strategies for Differentiating Instruction Julia Link Roberts, Tracy Ford Inman, 2007 Offers teachers practical strategies designed to help students learn by appropriately challenging levels and making

continuous progress by focusing on their varying levels of knowledge and readiness to learn

Marx after the Kyoto School Bradley Kaye, 2022-02-03 Nishida Kitaro 1870 1945 is considered Japan's greatest modern philosopher. As the founder of the Kyoto School, he initiated a rigorous philosophical engagement with Western philosophy, including the work of Karl Marx. Bradley Kaye explores the political aspects of Nishida's thought, placing his work in connection with Marxism and Zen. Developing concepts of self-awareness, Basho dialectical materialism, circulation, will, nothingness, and the state, Nishida's thought offers an ethics of personal will that radical awakening that offers clarity in a seemingly hopeless world. *Harmony & Understanding* Jocelyn May, 2006 Explores the beliefs, traditions, symbols, and practices of the five world religions: Buddhism, Christianity, Hinduism, Islam, and Judaism. Companion book to the titles in the World Religions series of Harmony and Understanding. Ages 8.

Exploring Religion and Ethics Peta Goldberg, Patricia Blundell, Trevor Jordan, 2011-04 EXPLORING RELIGION AND ETHICS is written by leading educators and experienced practising teachers to meet the requirements of the Religion and Ethics SAS in Queensland. It offers a vast array of learning opportunities that draw on a three-tiered model of personal, relational, and spiritual dimensions and encourages students to explore how these dimensions relate to their own religious beliefs. It features clear, concise, and student-friendly language that caters for different learning abilities and styles. Learning and assessment activities that engage and extend students. A wide range of valuable time-saving teacher support resources for additional classwork, homework, and assessment are available on Cambridge GO.

Lessons for the Social Studies Classroom M. Lazarus, S. Cohen, K. Lambert, R. E., 2013-03-12 The idea for this book came while I was observing a student teacher and a master teacher. I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons. I also noticed that teachers new to the field of teaching suffer the same fate: they are too busy trying to survive the day and are not sure how to plan and organize their teaching. Lesson plans are one of the most important tools for a teacher and more important for the novice teacher. I believe that during student teaching or during their undergraduate years, if students were equipped with this book, their first year teaching will not look so first year. Imagine an undergraduate class filled with soon-to-be Social Studies teachers discussing these selected lesson plans, improving upon them, and making them their own. Most first year teachers over-teach or under-teach, and both types still miss the marks on the standardized test. These lesson plans will give the new teacher a place to begin.

Religion as We Know It Jack Miles, 2019-11-12 A brief, beautiful invitation to the study of religion from a Pulitzer Prize winner. How did our forebears begin to think about religion as a distinct domain, separate from other activities that were once inseparable from it? Starting at the birth of Christianity, a religion inextricably bound to Western thought, Jack Miles reveals how the West's common sense understanding of religion emerged and then changed as insular Europe discovered the rest of the world. In a moving postscript, he shows how this very story continues today in the hearts of individual religious or irreligious men and women.

On Hinduism Wendy Doniger, 2014-02-03 In this magisterial volume of essays, Wendy Doniger enhances our

understanding of the ancient and complex religion to which she has devoted herself for half a century This series of interconnected essays and lectures surveys the most critically important and hotly contested issues in Hinduism over 3 500 years from the ancient time of the Vedas to the present day The essays contemplate the nature of Hinduism Hindu concepts of divinity attitudes concerning gender control and desire the question of reality and illusion and the impermanent and the eternal in the two great Sanskrit epics the Ramayana and the Mahabharata Among the questions Doniger considers are Are Hindus monotheists or polytheists How can atheists be Hindu and how can unrepentant Hindu sinners find salvation Why have Hindus devoted so much attention to the psychology of addiction What does the significance of dogs and cows tell us about Hinduism How have Hindu concepts of death rebirth and karma changed over the course of history How and why does a pluralistic faith remarkable for its intellectual tolerance foster religious intolerance Doniger concludes with four concise autobiographical essays in which she reflects on her lifetime of scholarship Hindu criticism of her work and the influence of Hinduism on her own philosophy of life On Hinduism is the culmination of over forty years of scholarship from a renowned expert on one of the world s great faiths

In Praise of Heteronomy Merold Westphal, 2017-05-22 Recognizing the essential heteronomy of postmodern philosophy of religion Merold Westphal argues against the assumption that human reason is universal neutral and devoid of presupposition Instead Westphal contends that any philosophy is a matter of faith and the philosophical encounter with theology arises from the very act of thinking Relying on the work of Spinoza Kant and Hegel Westphal discovers that their theologies render them mutually incompatible and their claims to be the voice of autonomous and universal reason look dubious Westphal grapples with this plural nature of human thought in the philosophy of religion and he forwards the idea that any appeal to the divine must rest on a historical and phenomenological analysis

Killing for Religion Stephen R. Schwalbe, 2022-06-13 The book will inform Westerners about how the three primary Asian religions facilitate violence and conflict Each of the three Asian religions selected Hinduism Buddhism and Shinto is defined and compared with the others and with the three Abrahamic religions Judaism Christianity and Islam Next these Asian religions are analyzed to see how each allows for violence and conflict Then the nature of religious conflict within them is compared to the nature of religious conflict within two of the Abrahamic religions Christianity and Islam Religious facilitated conflicts in Asia have already occurred for many centuries are occurring today and likely will continue to occur Although Asian religions may profess to be peaceful they still end up facilitating violence and conflict It is important to enlighten both the American members of the armed forces currently stationed in the Asia Pacific region numbering over one hundred thousand as well as American taxpayers whose taxes pay for this security regarding the religious aspect of conflict in Asia

We live in a world full of challenges The three graces can almost be seen as motors for Christian life in today s world but the words faith hope and love have so many everyday uses that their technical theological meanings are for many difficult to appreciate Modern life also leaves many yearning for authenticity and meaning Many religions have answered that need by calling to mind the image of a path Always profound progressions religious paths tend to be motivated either by practices the act of walking the path or focal points Christianity has a focal point an object and it sees the three graces as distinctively content filled The heart of this book is about helping people find the Christian path and their intellectual emotional and spiritual balance an equilibrium that is sustained by a strong personal faith an enduring hope for the future and genuine love that will withstand the worst of times It contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre **WJEC GCSE Religious**
