Verbatim Chronique Des Anneacutees Documents:

Verbatim Jacques Attali, 2014-04-01 Plus encore que les précédents ce dernier volume de Verbatim soulèvera des polémiques Parce qu'il contient maintes révélations sur une des périodes les plus riches de notre histoire contemporaine parce qu'on y voit notamment se dessiner le dernier empire du siècle et qu'on y revèle comment s'est déroulée et conduite la première guerre de l'après communisme celle du Golfe Aujourd'hui comme hier il ne s'agit pas pour moi de régler des comptes mais de rendre compte Mon propos n'est pas de rapporter des confidences de boudoir ou de dévoiler des secrets de pacotille mais en livrant clairement la vérité sur des faits essentiels la compréhension de l'Histoire de permettre aux citoyens de comprendre l'action de ceux qu'ils ont choisis et de les inciter réfléchir sur ce qui se produit quand les projets des gouvernements sont dépassés voire balayés par la volonté des peuples Cette troisième partie commence le 8 mai 1988 jour de la réélection de François Mitterrand la Présidence de la République Elle se termine le 15 avril 1991 _ soit un mois avant l'accession de Michel Rocard à la direction du gouvernement _ jour où j'ai quitté mes fonctions de conseiller spécial à l'Élysée pour prendre Londres la présidence d'une institution internationale dont je venais de négocier la création la Banque européenne de Reconstruction et de Développement BERD Au total ces trois années resteront parmi les plus inventives les plus chaotiques les plus allégres et les plus claires de ce siècle terrible Peut-être même ne devraient-elles être comparées à aucune autre période que celle de 1848 avec son cortège de promesses et d'espairs manqués Les discussions entre hommes d'État qu'on trouvera rapportées ici mériteront sans doute plus que beaucoup d'autres de figurer dans les livres d'Histoire J A

Hubris Jonathan Haslam, 2025-01-28 Jonathan Haslam reveals how US foreign policy from Bush Sr to Biden helped set the course for the Russo Ukrainian War After the Cold War Ukraine moved to the center of fraught negotiations between Russia and the West especially the US eager to extend its global hegemony and neglectful of Russian ire over the shifting balance of power in Europe **The Presidency**

of the European Commission under Jacques Delors K. Endo, 1999-01-13 This work is the first systematic study of the presidency of the European Commission Drawing upon cases of attempted leadership by Jacques Delors the Commission President from 1985-95 it examines the leadership capacity of the office holder This points to the inherently shared and contingent nature of Commission President's leadership in a Union where the leadership sources are widely dispersed While this is essentially an empirical study Endo addresses some of the theoretical implications of its findings and resulting issues

German Unification 1989-90 Patrick Salmon, Keith Hamilton, Stephen Robert Twigge, 2009-09-11 This volume is comprised of a collection of diplomatic documents covering British reactions to and policy towards the collapse of the German Democratic Republic and the unification of Germany in 1989-90 The peaceful unification of Germany in 1989-90 brought a dramatic end to the Cold War This volume documents official British reactions to the collapse of East Germany and the fall of the Berlin Wall and the evolution of British policy during the Two plus Four negotiations that provided the international framework for the merger of the two German states All of the documents fall within the UK's 30 year rule and

have therefore not previously been in the public domain Most are drawn from the archives of the Foreign and Commonwealth Office but there are also a large number of Prime Ministerial files from the Cabinet Office archives These are of particular interest for the light they throw on the views of Margaret Thatcher Taken together the documents show that despite Mrs Thatcher s well known reservations about German unity the United Kingdom played a vital and constructive role in the negotiations that helped to bring it about This volume will be of great interest to students of International History British Political History and European Politics and International Relations in general Patrick Salmon is Chief Historian at the Foreign and Commonwealth Office Keith Hamilton is a Historian at the Foreign and Commonwealth Office and Senior Editor of Documents on British Policy Overseas Stephen Twigge is a Senior Historian at the Foreign and Commonwealth Office

writes superbly and his analysis is compelling and original Anne Chisom Chair of the PEN Hessel Tiltman Prize Committee and Chair of the Royal Society of Literature One of the most violent conflicts in the history of civilization World War I has been strangely forgotten in American culture It has become a ghostly war fought in a haze of memory often seen merely as a distant preamble to World War II In *The Long Shadow* critically acclaimed historian David Reynolds seeks to broaden our vision by assessing the impact of the Great War across the twentieth century He shows how events in that turbulent century particularly World War II the Cold War and the collapse of Communism shaped and reshaped attitudes to 1914 18 By exploring big themes such as democracy and empire nationalism and capitalism as well as art and poetry *The Long Shadow* is stunningly broad in its historical perspective Reynolds throws light on the vast expanse of the last century and explains why 1914 18 is a conflict that America is still struggling to comprehend Forging connections between people places and ideas *The Long Shadow* ventures across the traditional subcultures of historical scholarship to offer a rich and layered examination not only of politics diplomacy and security but also of economics art and literature The result is a magisterial reinterpretation of the place of the Great War in modern history

Europe Reborn Harold James, 2014-07-10 In the early twentieth century brutal nation states such as Mussolini's Italy Stalin's Russia and Hitler's Germany came to the fore and the twin evils of dictatorship and war ensured the rapid destruction of liberal democracy market economics and the international order In contrast the latter half was concerned with re thinking and re shaping these core values which still guide political life after the millennium Harold James analyses the failures and achievements of the twentieth century The demands of the post war period namely the place of Europe in a wider international order are also examined Features include Boxed Case Studies Maps Plates Figures Short Biographies Chronologies Statistical Appendix James lucidly argues that European societies today are dominated by the trend to converge around the principles of democracy market economics and international integration He shows that the stability brought by the gradual unwinding of the nation state and the end of left right politics have created a Europe reborn

France and Britain, 1940-1994 P. M. H. Bell, 2014-09-25 This is the second volume in Philip Bell s study of Franco British relations in the twentieth century It covers the period from the Fall of France in 1940 to the opening of the Channel Tunnel Philip Bell views the half century as a long separation with France committed early on to a new concept of Europe in partnership with Germany whilst Britain stood apart The tensions and resentments it has generated have kept French British relations at the very heart of the burning question of Britain s place in Europe Yet the story has another side to which Philip Bell also does justice Much has been achieved by the two countries together and alongside their European partners For all their divergencies and antagonisms the French and British know and understand each other better today than at any other time in their modern histories and all these developments are fully explored in Philip Bell s engrossing and often amusing account

The Long Disenchantment Ilaria Poggiolini, 2024-12-27 This book seeks to replace a comforting European narrative of British missed opportunities with a chronicle of the complexity of UK EC EU relations After nearly a decade of Brexit 2016 it revisits the historical evolution of the relationship between Britain and Europe since the 1970s Building on an in depth study of primary and secondary sources the author sheds new light on the intricacies of that

relationship The book is structured in six chapters the first of which reflects on the causes of the UK's lack of engagement in the early and crucial developments of the European Community The second chapter revisits ten years of stop go diplomacy of accession and the meaning of the first enlargement for Britain and its partners The third chapter argues that in the early years entry represented for Britain an opportunity to deliver change working with France and Germany inside the EC and as an EC member building new relationships with countries outside including in the Commonwealth The fourth chapter focuses on the dawning realisation that EC membership meant for Britain joining its partners on a journey towards an unknown destination in search of whatever closer Union would mean The Fifth chapter concentrates on the 1980s when on the one hand the British government was to the fore in the creation of a single market while on the other it openly challenged an agreed upon narrative among the continental member states This narrative was one which sought to reshape European values and relationships together with its culture geography and history round a commitment to greater integration The final chapter is an epilogue that examines the political decisions of the last four British prime ministers Major Brown Blair and Cameron in confronting and reacting to the reality of European Union from the Maastricht Treaty 1992 onward This examination suggests that rather than political continuity discontinuity led the UK through Prime Minister David Cameron's efforts at renegotiation in the EU to Brexit and his instant resignation This book invites readers to rethink refine and challenge the dominant narrative of Britain as a predictable permanent outsider condemned to irrelevance in the EC EU It will appeal to scholars of international relations and political history as well as political decision makers both in Britain and the EU

German Reunification Frédéric Bozo, Andreas Rödder, Mary Elise Sarotte, 2016-08-05 This book provides a multinational history of German reunification based on empirical work by leading scholars The reunification of Germany in 1989-90 was one of the most unexpected and momentous events of the twentieth century Embedded within the wider process of the end of the Cold War it contributed decisively to the dramatic changes that followed the end of the division of Europe the collapse of the Warsaw Pact the origins of NATO's eastward expansion and not least the creation of the European Union Based on the wealth of evidence that has become available from many countries involved and relying on the most recent historiography this collection takes into account the complex interaction of multinational processes that were instrumental in shaping German reunification in the pivotal years 1989-90 The volume brings together renowned international scholars whose recent works based on their research in multiple languages and sources have contributed significantly to the history of the end of the Cold War and of German reunification The resulting volume represents an important contribution to our knowledge and understanding of a significant chapter in recent history This book will be of much interest to students of German politics Cold war history international and multinational history and IR in general

La France au Rwanda (1990-1994) Olivier Lanotte, 2007 Le 1er octobre 1990 le retour armé des anciens réfugiés rwandais réunis au sein du Front patriotique rwandais FPR marque l'entrée en guerre du Rwanda Une sale guerre au cours de laquelle la France sera

militairement présente et qui trouve son pilogue en juillet 1994 la faveur de la victoire du FPR Entre temps la guerre d'usure menée par le FPR les manipulations de l'ethnicité orchestrées par le régime Habyarimana la stratégie du chaos poursuivie par les faucons des deux bords et surtout le génocide perpétré par les extrémistes hutu ont causé la mort de plus d'un million de personnes Le propos de cet ouvrage est de décrire d'analyser et d'expliquer le processus de prise de décision ayant conduit le président Mitterrand à engager l'armée française au Rwanda entre 1990 et 1994 L'auteur mène ici sa recherche avec rigueur scientifique la fois ceux qui encensent la politique de la France et ceux qui la condamnent sans discernement et voquent une complicité de la République française dans le génocide De toute évidence entre les conclusions de la Mission d'information et celles des censeurs exagérés et autres sycophantes de la politique africaine de la France les divergences d'analyse sont d'envergure Il importe donc de les décrypter pour en apprécier la pertinence Quelles étaient les motivations réelles de la présence française au Rwanda Au-delà du constat d'échec de cette politique rwandaise quels facteurs ont contribué in fine à ruiner les effets de la politique menée par François Mitterrand Quel crédit enfin accorder aux accusations de complicité de génocide proférées l'encontre des soldats de l'opération Turquoise La France serait-elle la seule nation coupable parmi les nations saintes et pures

NATO and the Strategic Defence Initiative Luc-André Brunet, 2022-08-19 This book explores the largely neglected issue of responses to the US Strategic Defence Initiative SDI or the Star Wars missile defence programme across NATO The chapters here explore the reactions of different Western allies to the announcement of the SDI in 1983 and especially the 1985 invitation to participate While existing studies have explored the origins of the American programme and the role it may have played in ending the Cold War this volume breaks new ground by considering the impact of the SDI on transatlantic relations in the 1980s Based on newly available archival sources this volume re-evaluates the responses of eight NATO member state governments as well as the Soviet leadership to the SDI In addition to looking at top down governmental reactions the volume also explores the bottom up response to the SDI of civil society and peace activists on both sides of the Atlantic The volume examines how the American initiative derisively named Star Wars by its detractors provoked a crisis in relations with its allies during the final decade of the Cold War and how those tensions within NATO were ultimately resolved This book will be of much interest to students of Cold War history strategic studies foreign policy and international history

The Baltic Question During the Cold War John Hiden, Vahur Made, David J. Smith, 2008-03-07 This edited volume presents a comprehensive analysis of the Baltic question which arose within the context of the Cold War and which has previously received little attention This volume brings together a group of international specialists on the international history of northern Europe It combines country based chapters with more thematic approaches highlighting above all the political dimension of the Baltic question locating it firmly in the context of international politics It explores the policy decision making mechanisms which sustained the Western non recognition of Soviet sovereignty over the Baltic States after 1940 and which eventually led to the legal restoration of the three countries statehood in 1991 The wider international

ramifications of this doctrine of legal continuity are also examined within the context both of the Cold War and of relations between post soviet Russia and the enlarging Euro Atlantic area The book ends with an examination of how this Cold War legacy continues to shape relations between Russia and the West *Germany and the Baltic Problem After the Cold War* Kristina Spohr Readman, 2004-06-10 Questions how a unified Germany will use its great power status Draws on numerous confidential interviews with key political actors and on unprecedented access to still classified material **Europa und die deutsche Einheit** Michael Gehler, Maximilian Graf, 2017-09-11 Auf den ersten Blick geht die deutsche Einheit zu den am besten aufgearbeiteten Kapiteln der jüngsten Zeitgeschichte jedoch fokussierte die bisherige Forschung vor allem auf die innerdeutsche Dimension und auf die internationale Durchsetzung der Einheit Dabei standen insbesondere die vier Siegermächte des Zweiten Weltkriegs und einige Nachbarstaaten im Mittelpunkt Dieser Band untersucht die Wiedervereinigung erstmals aus einer gesamteuropäischen Perspektive und gliedert sich in regional und bedingte Themenblöcke Vier Mächte Neutrale und NATO Staaten Skandinavien Benelux Staaten Mittel und Osteuropa Süd Europa Zudem wird auch die Rolle transnationaler Parteinetzwerke thematisiert Die einzelnen Länderstudien skizzieren das Verhältnis des jeweiligen Landes zu den beiden deutschen Staaten vor 1989/90 Im Zentrum der Analysen steht die Haltung zur deutschen Frage vom Mauerfall am 9 November 1989 bis zum Vollzug der Einheit am 3 Oktober 1990 Länderspezifische Schwerpunktsetzungen machen deutlich wie divers die deutsche Einheit aus den jeweiligen nationalen Blickwinkeln wahrgenommen wurde und wie sehr diese bis heute das Deutschlandbild mitprägen Vor dem Hintergrund der Vertiefung der europäischen Integration und der Erweiterung der EU wird ein Ausblick auf die Rolle des geeinten Deutschlands bis ins Europa unserer Tage gewagt
