Sony vs Samsung Sea-Jin Chang, 2011-02-25 Sony vs Samsung is business history at its best It explores the divergent fortunes of these two electronics giants in the last decade and identifies the true reasons behind Sony s decline and Samsung s rise Contrary to popular belief

Chang shows that success or failure does not simply arise from different strategies. Rather, it emerges from major decisions that are deeply rooted in the companies' organizational processes and their executives' political behavior. This book is a must read for any senior executive. Constantinos Markides, Robert P. Bauman, Professor of Strategic Leadership and Chairman, Strategy Department, London Business School. Sea Jin Chang has produced that rarity in a business book: one that is as valuable to practicing managers as it is insightful to academic researchers. In this fascinating comparison of two modern global giants, he applies his high-resolution research microscope to their changing fortunes by dissecting their contrasting strategies and providing interesting insights into their divergent organizational processes and management practices. This is a very valuable contribution to the international business literature. It will end up in as many corporate boardrooms as faculty seminars. Christopher A. Bartlett, Thomas D. Casserly, Professor Emeritus, Harvard Business School. Sea Jin Chang has written a fascinating comparison of Sony and Samsung that will be valuable to anyone interested in strategy, organizations, or international business. The interwoven and very detailed case studies of two very different companies in overlapping industries illuminate problems such as adaptation to technological change, analog to digital, organizational flexibility, and globalization. His attempt to analyze both strategic development and implementation is successful and very useful. Both academics and practitioners will learn a lot from this book. Stephen J. Kobrin, William Wurster, Professor of Multinational Management, The Wharton School, University of Pennsylvania. Refreshingly original and entertaining, this book analyzes major strategic decisions of Samsung and Sony and highlights organizational processes and top management leadership that have shaped their performances. This is a must read for all executives who want to understand the strengths and weaknesses of Asian competitors. It also provides penetrating insights into other Asian companies with global ambitions. Myoung Woo Lee, President and CEO, Iriv. **Tbd** Shusuke Hayashi, Junpei Nakamura, Makoto Takahashi, Nobuo Karaki, Hideaki Asada, Hiroshi Haga, Tomoyuki Tachikawa, Kyuha Chung, Reiji Hattori, Reiji Asakura, Satofumi Koike, Susumu Tsujihara, Minsun Yoo, Norio Ikari, Tadashi Imai, Toshimasa Eguchi, Katsuji Takahashi, Mitsutaka Fujita, H. Chung, Kazuhiro Nishiyama, Akihiko Iguchi, Koichi Oka, 2006 Nikkei Microdevices 2006 report on flat panel display (FPD) industry includes Exclusive in-depth interviews with 28 top executives in the industry. Over 250 information-packed figures, tables, and pictures. Proprietary intelligence not available anywhere else. In 2006, competitive conditions in the flat panel display (FPD) industry will change significantly. The era in which competition was primarily based on increasing investment and glass substrate sizes is over. Henceforth, overall capability, including parts, material strategy, and equipment strategy, will become the decisive factor. By 2010, parts and material costs will account for 80% of the total cost of large-size LCD panels, which will drive future market expansions; thus, parts and materials will make up most of the value addition in panels. Leading panel makers are starting to reinforce their cooperative relationships with parts and material makers as well as with equipment makers. **The New Television Technologies** Lynne S.
