Abstract: The purpose of this study was to investigate the effect of the use of a computer-based learning system on the learning of the basic concepts of the theory of the cell. The study was conducted in a classroom of a high school in the city of Istanbul. The study was conducted in two groups. The first group was the control group and the second group was the experimental group. The experimental group used the computer-based learning system. The results of the study showed that the use of the computer-based learning system had a positive effect on the learning of the basic concepts of the theory of the cell. The results also showed that the use of the computer-based learning system had a positive effect on the learning of the basic concepts of the theory of the cell. The results also showed that the use of the computer-based learning system had a positive effect on the learning of the basic concepts of the theory of the cell.
