

IS project: MECHANICS OF A TOWER CRANE

EXECUTIVE SUMMARY

In this IS project, a keen analysis of a tower crane is presented. In Hamburg, ten tower cranes are currently being used in construction of 'Mitte Altona', an estate consisting of 1600 apartments in Germany. The make of these cranes is Liebherr and this is confirmed from the website of the manufacturer (Liebherr.com, 2018). By using the models provided, it's possible to get the specifications such as dimensions which can be used for force analysis.

In the photo below, a tower crane is presented.

In sketch 2 below, cranes are seen in the ongoing construction of 'Mitte Altona' in Hamburg, Germany.

[The Doctrine of the Doors: A Bible Based Study of the Portals of Heaven and Hell](#) Matthew S Crane, 2018-07-01 Mankind s technology is advancing at a breathtaking pace Things that were regarded a hundred years ago as fanciful imaginations are now a part of our everyday lives Modern evolutionary science would argue that man is currently at his highest potential yet the Bible paints a very different picture and indicates that shortly after the flood of Noah human ingenuity reached its pinnacle and God Himself had to stop it Through careful and thorough study of the Scriptures this book will display to the reader the blueprints of God s universe the secret passageways that He built into it and how beings from the spiritual realm can enter into the physical realm and visa versa Once one begins to understand the Doctrine of the Doors the diabolical purpose of the massive Tower of Babel comes into full view The greatest existential threat the human race has ever seen

since the Flood circa 2348 B C did not come in the form of a bomb or in the form of a weaponized virus it came in the form of a tower that was being assembled in a plain of the land of Shinar over 4 000 years ago Humanity is getting closer and closer to discovering the knowledge that they once possessed It will not be long before it is understood that the truth is not out there but rather right here and that the SKY really is the limit
