Conducting Research in Psychology Brett W. Pelham, Hart Blanton, 2018-08-02

Conducting Research in Psychology Measuring the Weight of Smoke provides students an engaging introduction to psychological research by employing humor stories and hands on activities Through its methodology exercises learners are encouraged to use their intuition to understand research methods and apply basic research principles to novel problems Authors Brett W Pelham and Hart Blanton integrate cutting edge topics including implicit biases measurement controversies online data collection and new tools for determining the replicability of a set of research findings The Fifth Edition broadens its coverage of methodologies to reflect the types of research now conducted by psychologists Two new chapters accommodate the needs of instructors who incorporate student research projects into their courses

Sustainability Prospects for Autonomous Vehicles George Martin, 2019-05-31 The Autonomous Vehicle AV has been strongly heralded as the most exciting innovation in automobility for decades Autonomous Vehicles are no longer an innovation of the future seen only in science fiction but are now being road tested for use And yet while the technical and economic success and possibilities of the AV have been widely debated there has been a notable lack of discussion around the social behavioural and environmental implications This book is the first to address these issues and to deeply consider the environmental and social sustainability outlook for the AV and how it will impact on communities Environmental and social sustainability are goals unlike those of technical development a new tool and economic development a new investment The goal of sustainability is development of societies that live well and equitably within their ecological limits Is it reasonable and desirable that only technical and economic success comprise the swelling AV parade or should we be looking at the wider impacts on personal well being wider society and the environment The uptake for AVs looks to be lengthy disjointed and episodic in large measure because it faces a range of known unknown risks This book assesses the environmental and social sustainability potential for AVs based on their prospective energy use and their impacts on climate change urban landscapes public health mobility inequalities and individual and social well being It examines public attitudes about AV use and its risk of fostering a rebound effect that compromises potential sustainability gains The book concludes with a discussion of critical issues involved in sustainable AV diffusion

Introduction to Criminology Frank E. Hagan, 2015-12-09 Written by active researcher and bestselling author Frank E Hagan *Introduction to Criminology* Ninth Edition is a comprehensive introduction to the study of

criminology focusing on the vital core of criminological theory theory method and criminal behavior With more attention to crime typologies than most introductory texts Hagan investigates all forms of criminal activity such as organized crime white collar crime political crime and environmental crime The methods of operation the effects on society and policy decisions and the connection between theory and criminal behavior are all explained in a clear accessible manner All statistics tables and figures have been updated as have the photographs supplements and audio and video packages in the new edition to make the material most relevant for your course

Automotive Industrialisation Kaoru Natsuda, John Thoburn, 2020-10-14 This book looks at the industrial policies of Southeast Asian economies in their motor vehicle industries from early import substitution to policy making under the more liberalised WTO policy regime The book examines how inward automotive investment especially from Japan has been affected by policies and how such investment has promoted industrial development in the late industrialising economies within ASEAN Association of Southeast Asian Nations It provides insights into the automotive industry of Southeast Asia in terms of production volumes sales volumes market structure and trade Through country case studies the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of automotive development in the region It will appeal to policy makers and researchers interested in the automobile industry industrial policies in the industry and the spread of development from foreign investors to local firms
