Towards A New Executive Order In Europe:

Towards A New Executive Order In Europe? Deirdre Curtin, Morten Egeberg, 2013-09-13 The executive branch of government in Europe is being gradually transformed in several significant respects First executive power has been continuously strengthened at the EU level in the form of the European Commission EU level agencies and diplomatic and military staff in the Union Council secretariat Second EU executive bodies relate directly to regulatory authorities at the national level in charge of applying and partly preparing EU laws and programmes partly circumventing ministerial departments Thus parts of national administrations become parts of an integrated and multi level Union administration as well as parts of national executives Such a system with multiple political masters raises delicate questions about political steering and accountability This book focuses on this fascinating development both from a political science and a legal perspective encompassing the consolidation of the supranational executive as well as its relationships with its partners at the national level This book was published as a special issue of West European Politics

Self-Constitution of European Society Jiří Příbáň, 2016-05-26 Recent social and political developments in the EU have clearly shown the profound structural changes in European society and its politics Reflecting on these developments and responding to the existing body of academic literature and scholarship this book critically discusses the emerging notion of European constitutionalism its varieties and different contextualization in theories of EU law general jurisprudence sociology of law political theory and sociology The contributors address different problems related to the relationship between the constitutional state and non state constitutionalizations and critically analyze general theories of constitutional monism dualism and pluralism and their juridical and political uses in the context of EU constitutionalism Individual chapters emphasize the importance of interdisciplinary and socio legal methods in the current research of EU constitutionalism and their potential to re conceptualize and re think traditional problems of constitutional subjects limitation and separation of power political symbolism and identity politics in Europe This collection simultaneously describes the EU and its self constitution as one polity differentiated society and shared community and its contributors conceptualize the sense of common identity and solidarity in the context of the post sovereign multitude of European society

The Party Politics of Territorial Reforms in Europe Emanuele Massetti, Simon Toubeau, 2020-07-24 The book analyses how political parties compete and strategise on the issue of territorial reform using case studies that include countries from both Western Belgium Germany Italy and Spain and Central Eastern Europe Poland Slovakia and Romania Each case study considers different drivers of decentralization such as territorial identities and the demands of regionalist parties for territorial autonomy or independence efficiency concerns related to issues of uneven economic development and economic competitiveness the pressure from supra national organizations especially the EU as well as different combinations of these drivers They also consider how the ideology and organisation of state wide parties and the institutional context in which they compete shape their responses to these drivers

and their strategy towards the question of territorial reform This collection investigates the logic of the actions that guide political parties strategy to highlight trends that are apparent across the case studies This book was originally published as a special issue of West European Politics The Differentiated Politicisation of European Governance Pieter de Wilde,Anna Leupold,Henning Schmidtke,2018-02-05 This book on the differentiated politicisation of European governance provides an overview of research on the growing salience of EU governance polarisation of opinion and expansion of actors and audiences engaged in monitoring and influencing EU affairs in the national context The contributors empirically map the diversity of these three core components of politicisation across countries time and arenas The chapters develop novel insights into the causes and consequence of this differentiated politicisation of European governance Going beyond the current literature the contributions disaggregate and examine politicisation processes among different sets of actors and on different objects using quantitative and qualitative methods leading to a differentiated picture of politicisation patterns across EU member states and non member states such as Switzerland They highlight the explanatory power of intermediating factors like the institutional surrounding and country specific economic and cultural conditions in addition to the transfer of political authority to the EU as the main driver of politicisation This book was previously published as a special issue of West European Politics *Assessing Political Representation in Europe* Christine Arnold,Mark N.

Franklin,2020-05-21 It has long been realized that democratic governance requires a two way flow of influence Governments must be able to respond to what people want and people must be able to react to what governments do These mechanisms of democratic governance have contributed to two research traditions one the responsible party approach views policy change as a consequence of electoral turnover and the other the dynamic representation approach views policy change as occurring in rational anticipation of electoral repercussions The aim of this book is to evaluate the state of political representation in contemporary Europe in the light of these two approaches The chapters present fresh insight into issue congruence between voters and parties and into the extent of dynamic representation The chapters are logically clustered into three groups one group of scholars base their work on the responsible party model and apply it to voters and European parties and party groups a second group of scholars demonstrate the importance of institutional structures on the degree of issue congruence and a third group of scholars examine the reciprocal nature of dynamic representation and the effects of institutions on the opinion policy connection This book was published as a special issue of West European Politics **Decision making in the**

EU before and after the Lisbon Treaty Madeleine Hosli,Amie Kreppel,Běla Plechanovová,Amy Verdun,2017-10-02 Decision making in the European Union before and after the Lisbon Treaty aims to assess what the changes the Treaty of Lisbon envisaged and whether these ambitions have materialised since the Treaty entered into force It offers analyses of the past as well as what might be the future because some provisions will only enter into effect in the years to come To what extent has the current decision making process been able to address the shortcomings and challenges of the past What has

been the impact of aspects of the Lisbon Treaty that clarified pre existing norms and structures in some cases formalizing them rather than introducing new changes The authors in this book look at the interaction between formal rules and informal practices seeking to point to the interaction between the two They find that informal practices to date typically still dominate formal rules This book was published as a special issue of West European Politics **Research Handbook on EU**

Administrative Law Carol Harlow,Päivi Leino,Giacinto della Cananea,2017-02-24 Key chapters written by leading experts across the field engage with important ongoing debates in the field of EU administrative law focusing on areas of topical interest such as financial markets the growing security state and problematic common asylum procedures In doing so they provide a summary of what we know don t know and ought to know about EU administrative law Examining the control functions of administrative law and the machinery for accountability this Research Handbook eloquently challenges areas of authoritarian governance such as the Eurozone and security state where control and accountability are weak and tackles the seemingly insoluble question of citizen voice and access to policy making Law and Administration Carol Harlow,Richard Rawlings,2009-08-20 A contextualised study setting out the foundations of administrative law with discussion of case law and legislation to show practical application **The EU High Representative** Niklas Helwig,2024-11-21 This book offers the

first comprehensive analysis and comparison of all the EU High Representatives Vice Presidents of the Commission HRVPs until 2024 The book explores how three incumbents with very different backgrounds ways of working and personalities took up the challenge of formulating the EU s answers to brewing international crises regional instabilities humanitarian disasters and eventually war Applying role theory the research provides deep insights into foreign policy leadership during a period when the EU needed to adapt to a rapidly changing international environment Based on a large set of expert interviews the book makes the case that the leadership and role performance of the HRVP matter and can have a positive impact on the EU s international activities As geopolitics stages a revival future HRVPs need to engage powerful member states and key actors in Brussels to unleash the full potential of the EU s economic political and military weight **Beyond the Regulatory**

Polity? Philipp Genschel,Markus Jachtenfuchs,2014 This volume explores the involvement of the European Union in the exercise of core state powers such as foreign and defense policy public finance public administration and the maintenance of law and order Rulemaking by the European Commission Carl Fredrik Bergström,Dominique Ritleng,2016 Examining the

constitutional and procedural arrangements that enable the European Commission to adopt general and legally binding rules this book explores how the system works in practice subsequent to the sweeping reforms recently implemented *The EU Timescape* Klaus Goetz,Jan-Hinrik Meyer-Sahling,2013-09-13 The manner in which time is institutionalized is critical to how a political system works Terms time budgets and time horizons of collective and individual political actors rights over timing sequencing and speed in decision making and the temporal properties of policy matter to the distribution of power efficiency and effectiveness of policy making and democratic legitimacy This book makes a case for the systematic study of political

time in the European Union EU both as an independent and a dependent variable and highlights the analytical value added of a time centred analysis The book discusses previous scholarship on the institutionalization of political time and its consequences along the dimensions of polity politics and policy reviews dominant perspectives on political time which centre on power system performance and legitimacy and presents case studies that illustrate the importance of time in the governance of the EU This book was original published as a special issue of Journal of European Public Policy **Towards a new regulatory framework for GM crops in the European Union** Escajedo San-Epifanio Escajedo

San-Epifanio,2023-08-07 Aware of the significant potential of nascent biotechnologies the European Economic Community the predecessor to the European Union was one of the first regions in the world to develop a regulatory framework for them Back in the 1980s the objective of Community member countries was to strengthen the standards of consensus and collaboration and of environmental and health safety as well as to promote an industrial sector of enormous potential In spite of all effort towards the end of the 1990s it was a widely accepted fact that a number of political and economic factors were blocking the development of biotechnology in Europe From that crisis emerged what in some aspects is probably the most comprehensive and rigorous body of regulations for biotechnology in the world today However the very high technical level of those regulations did not prevent a new crisis which EU institutions aim to solve with a new regulatory framework Thus since March 2015 the way towards the third regulatory framework for Biotechnology in the EU has been open Will this third regulatory framework finally offer sufficient guarantees to allow a healthy and sustainable development of biotechnology in the EU What do we need to do so that third time is lucky In this work a group of European and non European experts from different disciplines and approaches discuss the past and the present as well as the various possible futures of Genetically Modified Crops in the EU Democracy, Federalism, the European Revolution, and Global Governance Andrea

Bosco,2020-06-10 The European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union s construction democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political

identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance

Theorizing Internal Security in the European Union Raphael Bosson, Mark Rhinard, 2016-10-20 This edited volume offers different theories useful for understanding and explaining European Union cooperation on internal security matters Cooperation on such matters has not only flourished over the past two decades but more recently has also become one of the most politicised or contested areas of European integration Yet academic studies in the field remain predominantly empirical or not readily accessible to new scholars The book addresses this major gap by providing a theoretical primer with a palette of options for explaining a complicated issue area reaching across the divide of critical and more mainstream scholars that typically fragments discussion and debate Theorizing Internal Security Cooperation in the European Union offers accessible and authoritative contributions by some of the most distinguished scholars in the field Each chapter reviews the emergence of a major theoretical approach the current state of the art for that approach and the accompanying methodological considerations before providing an empirical illustration and an outlook on further research and dialogue with other perspectives This book will serve as a central reference for developing our understanding of EU internal security cooperation for exploring the ongoing transformation of statehood and for illuminating the contemporary evolution of the European Union

Novel Foods and Edible Insects in the European Union Lucia Scaffardi, Giulia Formici, 2022-09-20 This open access book proposes an in depth study on a vast range of issues connected to the regulation of Novel Foods in the European Union pursuing an interdisciplinary approach and thus providing a comprehensive picture of this complex topic Particular attention is paid not only to the current EU legislative framework its positive innovations unsolved problems and limits but also to food safety issues and the potential impact of Novel Foods on sustainability and food security In addition the book focuses on a particular category of Novel Foods insects for human consumption These products recently gained momentum after the first EU Commission authorisation of dried yellow mealworm *Tenebrio molitor* in 2021 The book contributes to the lively public debate following this long awaited authorisation by examining the legal issues arising from the application of the Novel Foods Regulation to these peculiar new foods the EFSA risk assessment evaluations the consumers perceptions and potential future of insect based products market in the EU By providing such an extensive analysis including recent developments and future prospects the book represents a valuable tool for students and academics but also institutions and public authorities helping them understanding the various challenges related to Novel Foods and edible insects Furthermore it seeks to promote an informed debate in order to find innovative solutions to pressing problems concerning how to feed the world of tomorrow

Political Accountability and European Integration L. F. M. Verhey, Philipp Kiiver, Sandor Loeffen, 2009 This volume addresses the future of political control and accountability in a European and comparative perspective It is based on the contributions to an international conference hosted by the

Montesquieu Institute Center of European Parliamentary History and Constitutional Development at Maastricht in March 2008 The conference concluded a larger research project that was devoted to identifying features of domestic constitutional law that could help develop a system of effective accountability for the European Union

The Oxford Handbook of Political Executives Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research

The Democratisation of EU International Relations Through EU Law Juan Santos Vara, Soledad Rodríguez Sánchez-Tabernero, 2018-07-27 Since the entry into force of the Treaty of Lisbon key improvements have occurred in the democratisation of EU international relations through the increased powers of the European Parliament Nevertheless a comprehensive legal analysis of the new developments in democratic control of EU external action has not yet been performed This book aims to improve the understanding of the set of mechanisms through which democratic control is exerted over EU external action in times of profound transformations of the legal and political architecture of the European integration process It analyses the role of the Court of Justice in the democratisation of international relations through EU law and further provides a legal overview of the role of the European Parliament in the conduct of the EU's international relations In those areas where the powers of the Parliament have greatly increased the book aims to raise questions as to whether this enhanced position has contributed to a more consistent external action At the same time the book aims to contribute to the debate on judicial activism in connection with the democratisation of EU external action It offers the reader a detailed and topical analysis of the recent developments in democratic control of external action which are of relevance in the daily practice of EU external relations lawyers including the topic of mixed agreements This text will be of key interest to scholars and students working on EU external relations law EU institutional law European Union studies politics international relations and more broadly to policy makers and practitioners particularly to those with an interest on the European Parliament and the Court of Justice of the European Union

EU Administrative Law Paul Craig, 2018-10-25 The third edition of EU Administrative Law provides comprehensive coverage of the administrative system in the EU and the principles of judicial review that apply in this area This revised edition provides important updates on each area covered including new case law institutional developments and EU legislation These changes are located within the framework of broader developments in the EU The chapters in the first half of the book deal with all the principal variants of the EU administrative regime Thus there are chapters dealing with the history and taxonomy of the EU administrative regime direct administration shared administration comitology agencies social partners and the open

method of coordination The coverage throughout focuses on the legal regime that governs the particular form of administration and broader issues of accountability drawing on literature from political science as well as law The focus in the second part of the book shifts to judicial review There are detailed chapters covering all principles of judicial review and the discussion of the law throughout is analytical and contextual It begins with the principles that have informed the development of EU judicial review This is followed by a chapter dealing with the judicial system and the way in which reform could impact on the subject matter of the book There are then chapters dealing with competence access transparency process law fact and discretion rights equality legitimate expectations two chapters on proportionality the precautionary principle two chapters on remedies and the Ombudsman
