Visible Differences Dominic Pulera,2002-06-05 Race The mere mention of the R word is a surefire conversation stopper In this book about America s most divisive social issue Dominic J Pulera offers a compelling roadmap to our future This accessible and penetrating analysis is the first to include detailed coverage of America s five racial groups whites blacks Hispanics Asian Americans and Native Americans The author contends that race will matter to Americans during the twenty first century because of visible differences and that differences in physical appearance separating the races are the single most important factor shaping intergroup relations in conjunction with the social cultural economic and political ramifications that accompany them Pulera shows how why when and where race matters in the United States and who is affected by it He explains the ongoing demographic transition of America from a predominantly white country to one where nonwhites are increasingly numerous and consequently more visible The advent of a multiracial consciousness has tremendous implications for America s future because the racial significance of almost every part of the American experience is increasing as a result The author concludes on a note of cautious optimism as he explores whether the visible differences dividing Americans are reconcilable

Tyranny of the Minority Benjamin Bishin,2009-03-27 Why do politicians frequently heed the preferences of small groups of citizens over those of the majority Breaking new theoretical ground Benjamin Bishin explains how the desires of small groups which he calls subconstituencies often trump the preferences of much larger groups Tyranny of the Minority provides a unified theory of representation based in social psychology and identity theory to explain how citizens intensity fosters knowledge and participation and drives candidates behavior in campaigns and legislators behavior in Congress Demonstrating the wide applicability of the theory Bishin traces politicians behavior in connection with a wide range of issues including the Cuban trade embargo the extension of hate crimes legislation to protect gay men and lesbians the renewal of the assault weapons ban abortion politics and Congress s attempt to recognize the Armenian genocide He offers a unique explanation of when why and how special interests dominate American national politics

City

Adrift Jenni Bergal, 2007-06 Hurricane Katrina was a stunning example of complete civic breakdown Beginning on August 29 2005 the world watched in horror as despite all the warnings and studies every system that might have protected New Orleans failed Levees and canals buckled pouring more than 100 billion gallons of floodwater into the city Botched communications crippled rescue operations Buses that might have evacuated thousands never came Hospitals lost power and patients lay suffering in darkness and stifling heat At least 1 400 Louisianans died in Hurricane Katrina more than half of them from New Orleans and hundreds of thousands more were displaced many still wondering if they will ever be able to return How could all of this have happened in twenty first century America And could it all happen again To answer these questions the Center for Public Integrity commissioned seven seasoned journalists to travel to New Orleans and investigate the storm s aftermath In *City Adrift New Orleans Before and After Katrina* they present their findings The stellar roster of contributors includes Pulitzer Prize winner John McQuaid whose earlier work predicted the failure of the levees and the impending disaster longtime Boston Globe newsman Curtis Wilkie a French Quarter resident for nearly fifteen years and Katy Reckdahl an award winning freelance journalist who gave birth to her son in a New Orleans hospital the day before Katrina hit They and the rest of the investigative team interviewed homeowners and health officials first responders and politicians and evacuees and other ordinary citizens to explore the storm from numerous angles including health care social services housing and insurance and emergency preparedness They also identify the political social geographical and technological factors that compounded the tragedy Comprehensive and balanced *City Adrift* provides not only an assessment of what went wrong in the Big Easy during and following Hurricane Katrina but also more importantly a road map of what must be done to ensure that such a devastating tragedy is never repeated

The Appearance of Equality Christophe M. Burke, 1999-06-30 An examination of the language of law in the area of political representation this book considers the development and recognition of group claims brought pursuant to the Voting Rights Act and the Equal Protection Clause in Supreme Court opinions In his analysis Burke highlights the different discursive strategies broadly identified as liberal and communitarian used by the Supreme Court to justify the outcomes of various cases and he argues that no particular strategy of justification is inherently politically conservative or liberal and that no conception of political representation is unassailable Therefore it is unlikely that the Supreme Court will articulate a stable measure of fair representation The Supreme Court offers one more forum in the deliberation over what is fair representation however it is not likely to provide minority communities with a legal answer to the problem of political underrepresentation As such this book tells the uncertain story of the creation of political fairness by the Supreme Court The language used to characterize what is fair and representative and the theoretical designs which the rhetoric reflects allows us to formulate concepts of fair representation as legal standards evolve By placing the debate over fair representation in not only political and legal but also philosophical terms we are better able to understand the inevitable tensions that drive the concept of representation into new ill defined and contentious areas

The Girls in

the Van Beth J. Harpaz, Beth Harpaz, 2002-11-20 *The Girls in the Van* is the ultimate press pass to Hillary Clinton's historic Senate run following the first lady from the moment she dons a black pantsuit and a Yankees cap all the way to her historic victory. This book is a front row seat in the press van as Hillary takes a My Fair Lady style Yiddish lesson, invokes Harriet Tubman thirty times on a tour of black churches, and spends as much time explaining why she kissed Yasser Arafat's wife as she does justifying why she stays married to Bill. *The Girls in the Van* takes you on an unforgettable trip from the ladies room at the Waldorf to the garden of the Clinton's Westchester home.

The Surge Larry J. Sabato, 2015-03-16 The 2014 midterm election was one of the most significant in recent memory with a decisive turning of the tables in favor of Republicans. With a now Republican controlled Senate and House at odds with a Democratic president with only two years left in office, the fault lines within and between both parties have never been more tenuous. In this book, prominent elections scholar and political commentator Larry J. Sabato brings together respected journalists and experts from across the political spectrum to examine every facet of the midterm election results and the implications for the 2016 election cycle. In frank, accessible prose, each author offers insight that goes beyond the headlines to analyze what the midterm results mean and what is at stake in the coming presidential race. Contributing authors joining Larry Sabato with chapters in the book include Professor Alan Abramowitz of Emory University, Mark Blumenthal of Huffington Post, Jamelle Bouie of Slate, Rhodes Cook formerly of Congressional Quarterly, Robert Costa of the Washington Post, Ariel Edwards-Levy of Huffington Post, James Hohmann of Politico, political writers and commentators Kyle Kondik and Geoff Skelley of the University of Virginia Center for Politics, Jill Lawrence of Creators Syndicate, Visiting Assistant Professor Josh Putnam of Appalachian State University, Michael Toner and Karen Trainer of Wiley Rein LLP, and Sean Trende of RealClearPolitics.

Moral Victories in the Battle for Congress Marty Cohen, 2019-06-28 While Christian conservatives had been active in national politics for decades and had achieved a seat at the table by working with the Republican Party, the 1980s and 1990s saw them make significant strides by injecting issues of moral traditionalism into U.S. House races across the country. Christian conservative activists worked diligently to nominate friendly candidates and get them elected. These moral victories transformed the Republican House delegation into one that was much more culturally conservative and created a new Republican majority. In *Moral Victories*, Marty Cohen seeks to chronicle this significant political phenomenon and place it in both historical and theoretical contexts. This is a story not only of the growing importance of moral issues but also of the way party coalitions change and how this particular change began with religiously motivated activists determined to ban abortion, thwart gay rights, and restore traditional morality to the country. Beginning in the early 1980s and steadily building from that point, religious activists backed like-minded candidates. Traditional Republican candidates more concerned about taxes and small government resisted the newcomers and were often defeated. As a result, increasing numbers of House Republican nominees were against abortion and gay rights. Voters responded by placing moral issues above their interests in economic policies, which led to the election of ever more socially

conservative representatives As a result the House Republican caucus evolved from a body that advocated largely for low taxes and small government to one equally invested in moral and social issues especially abortion and gay rights The new moralistic Republican candidates were able to win in districts where traditional business Republicans could not thereby creating the foundation for a durable Republican majority in the House and reshaping the American political landscape

Alberto Alesina, Geoffrey Carliner, 2008-04-15 Is the federal budget deficit a result of congressional deadlocks gross miscalculation of economic trends or a Republican strategy to tie the budgetary hands of future Democratic leadership To what extent does the partisan split between Congress and the executive branch constrain the president s agenda In this volume political scientists and economists tackle these and many other contentious issues offering a variety of analytical perspectives Certain to provoke controversy this interdisciplinary volume brings together policy experts to provide a

coherent analysis of the most important economic policy changes of the 1980s Through a detailed examination of voting patterns monetary and fiscal policies welfare spending tax reform minimum wage legislation the savings and loan collapse and international trade policy the authors explore how politics can influence the direction of economic policymaking
