Modern Training and Handling (Classic Reprint) B. Waters, 2018-02-13 Excerpt from Modern Training and Handling The first field trial in America was run near Memphis Tenn in 1874 under the auspices of the Tennessee Sports man s Association and had ten starters For four or five years thereafter the trials grew slowly but gradually their advantages became known and served to awaken the inter est of sportsmen The inauguration of field trials brought the expert trainers to the front and the competition and ample opportunities for comparison of methods caused gen eral improvement The importation of blue bloods from England was

followed by the keenest of competitions which resulted in the permanent supremacy of the imported dog over the native. The win of a dog in a public competition gave him an acknowledged meritorious reputation and greatly increased his monetary value and that of his related blood. To own dogs which were winners or had the superiority of a winning strain was the strong desire of all progressive sportsmen. The spirit of rivalry or emulation which competition engendered created an active and wide spread demand for better dogs. This in turn resulted in a large number of breeders to supply the demand. Many dogs were imported in addition to those native bred and values constantly increased. The enlargement in the dog world served to permanently engage the entire time and attention of a class of expert trainers who adopted training as a profession and as a higher grade of ability was required the typical old time trainer either became a market shooter pure and simple or was lost in the struggle for supremacy. It required several years however for the expert field trial trainers to outgrow the prejudices and antipathies a legacy inherited from their predecessors.

Culture Clash Jean Donaldson, 2013-06-01
The most thought provoking book ever written on dog behavior and training. Generations of dogs have been labeled training lemons for requiring actual motivation when all along they were perfectly normal. Numerous other completely and utterly normal dogs have been branded as canine misfits simply because they grew up to act like dogs. Barking, chewing, sniffing, licking, jumping up and occasionally just like people having arguments is as normal and natural for dogs as wagging tails and burying bones. However all dogs need to be taught how to modify their normal and natural behaviors to adjust to human culture. Sadly all too often when the dog's way of life conflicts with human rules and standards many dogs are discarded and summarily put to death. That's quite the *Culture Clash*. Simply the best dog book I have ever read. The *Culture Clash* is utterly unique, fascinating to the extreme and literally overflowing with oodles of useful how to information. Jean Donaldson's refreshing new perspective on the relationship between people and dogs had redefined the state of the art of dog friendly dog training.
