Environmental Science and Information Application Technology David Chan, 2015-06-29 Environmental Science and Information Application Technology contains selected papers from the 2014 5th International Conference on Environmental Science and Information Application Technology ESIAT 2014 Hong Kong 7 8 November 2014 The book covers a wide variety of topics Global Environmental Change and Ecosystems Management Graphic and I **Social Media Listening and Monitoring for Business Applications** Rao, N. Raghavendra, 2016-09-21 Social Media has transformed the ways in which individuals keep in touch with family and friends Likewise businesses have identified the profound opportunities present for customer engagement and understanding through the massive data available on social media channels in addition to the customer reach of such sites Social Media Listening and Monitoring for Business Applications explores research based solutions for businesses of all types interested in an understanding of emerging concepts and technologies for engaging customers online Providing insight into the currently available social media tools and practices for various business applications this publication is an essential resource for business professionals graduate level students technology developers and researchers *Encyclopedia of Polymer Applications, 3 Volume Set* Munmaya Mishra, 2018-12-17 Undoubtedly the applications of polymers are rapidly evolving Technology is continually changing and quickly advancing as polymers are needed to solve a variety of day to day challenges leading to improvements in quality of life The Encyclopedia of Polymer Applications presents state of the art research and development on the applications of polymers This groundbreaking work provides important overviews to help stimulate further advancements in all areas of polymers This comprehensive multi volume reference includes articles contributed from a diverse and global team of renowned researchers It offers a broad based perspective on a multitude of topics in a variety of applications as well as detailed research information figures tables illustrations and references The encyclopedia provides introductions classifications properties selection types technologies shelf life recycling testing and applications for each of the entries where applicable It features critical content for both novices and experts including engineers scientists polymer scientists materials scientists biomedical engineers macromolecular chemists researchers and students as well as interested readers in academia industry and research institutions **Towards Sustainable Food Production in Africa** Morris Fanadzo, Nothando Dunjana, Hupenyu Allan Mupambwa, Ernest Dube, 2023-07-10 This edited book is focused on Sustainable Development Goal 2 It offers a comprehensive and topical collection of practices technologies and innovations in the field of sustainable food production and security under a changing climate It is a one stop handbook for farmers researchers extensionists policy makers and other stakeholders seeking to identify and disseminate best fit technologies for local and regional landscapes It offers an understanding of the challenges risks and uncertainties as well as opportunities to foster productive and sustainable food production Smallholder farming and agriculture in general is facing a serious threat from climate change that has resulted in

erratic and unpredictable rainfall and increased temperatures among other abiotic stresses These climate change induced pressures have reduced productivity mainly among the smallholder farmers who are critical in driving the attainment of sustainable development goals like SDG 2 12 and 13 The objective of the book is to document effective and practicable practices and technologies that can be adopted by smallholder African farmers as mitigation measures against the effects of climate change This book is of interest to researchers agricultural scientists climate change scientists capacity builders and policymakers

Polymeric Biomaterials for Healthcare Applications Kokkarachedu Varaprasad,2022-05-07 Polymeric Biomaterials for Healthcare Applications details a broad range of polymeric biomaterials methods of synthesis and preparation and their various applications in healthcare and biomedicine The book provides a fundamental overview of polymers and processing technologies to allow clinical scientists to explore the use of these polymers in alternative applications A wide variety of healthcare applications are covered including treatment for autoimmune diseases and bacterial infections tissue engineering gene delivery wound dressing and more The book provides a core introductory text for clinical and materials scientists new to the area of polymeric biomaterials This book will prove useful to academics and researchers in materials science biomedical engineering clinical science and pharmaceutical science Covers a broad range of polymeric biomaterials including chitosan alginate cellulose collagen synthetic conjugates and more Details a wide variety of healthcare applications for polymeric biomaterials such as orthopedic engineering antibiotics targeted drug delivery and more Provides a detailed overview of polymer processing technologies and sterilization considerations

TMS 2015 144th Annual Meeting and Exhibition The Minerals, Metals & Materials Society (TMS),2015-02-26 The TMS 2015 Annual Meeting Supplemental Proceedings is a collection of papers from the TMS 2015 Annual Meeting the unedited papers have not necessarily been reviewed by the symposium organizers and are presented as is The opinions and statements expressed within the papers are those of the individual authors only and no confirmations or endorsements are intended or implied

Handbook of Research on Mobile Devices and Applications in Higher Education Settings Briz-Ponce, Laura,Juanes-Méndez, Juan Antonio,García-Peñalvo, Francisco José,2016-07-13 Mobile phones have become an integral part of society as their convenience has helped democratize and revolutionize communication and the marketplace of ideas Because of their ubiquity in higher education undergraduate classrooms have begun to utilize smartphones and tablets as tools for learning The Handbook of Research on Mobile Devices and Applications in Higher Education Settings explores and fosters new perspectives on the use of mobile applications in a classroom context This timely publication will demonstrate the challenges that universities face when introducing new technologies to students and instructors as well as the rewards of doing so in a thoughtful manner This book is meant to present the latest research and become a source of inspiration for educators administrators researchers app developers and students of education and technology

Soft Computing: Theories and Applications Rajesh Kumar,Ajit Kumar Verma,Tarun K. Sharma,Om Prakash Verma,Sanjay

Sharma,2023-04-24 This book focuses on soft computing and how it can be applied to solve real world problems arising in various domains ranging from medicine and health care to supply chain management image processing and cryptanalysis It gathers high quality papers presented at the International Conference on Soft Computing Theories and Applications SoCTA 2022 held at University Institute of Technology Himachal Pradesh University Shimla Himachal Pradesh India The book offers valuable insights into soft computing for teachers and researchers alike the book inspires further research in this dynamic field **Proceedings of 2nd International Conference on Intelligent Computing and Applications** P. Deiva

Sundari,Subhransu Sekhar Dash,Swagatam Das,Bijaya Ketan Panigrahi,2016-10-12 Second International Conference on Intelligent Computing and Applications was the annual research conference aimed to bring together researchers around the world to exchange research results and address open issues in all aspects of Intelligent Computing and Applications The main objective of the second edition of the conference for the scientists scholars engineers and students from the academia and the industry is to present ongoing research activities and hence to foster research relations between the Universities and the Industry The theme of the conference unified the picture of contemporary intelligent computing techniques as an integral concept that highlights the trends in computational intelligence and bridges theoretical research concepts with applications The conference covered vital issues ranging from intelligent computing soft computing and communication to machine learning industrial automation process technology and robotics This conference also provided variety of opportunities for the delegates to exchange ideas applications and experiences to establish research relations and to find global partners for future collaboration Multi-purposeful Application of Geospatial Data Rustam B. Rustamov,Sabina Hasanova,Mahfuza H.

Zeynalova,2018-05-09 This book is dedicated toward space technology application in Earth studies based on the use of a variety of methods for satellite information classification and interpretation Advantages of geospatial data use in a large scale area of observation and monitoring as a source of decision making stage have been demonstrated The book describes navigation systems providing data estimation method and review of existing data in the literature relevant to remote sensing sensors delivering main information electromagnetic spectrum and a variety of sensor applications This aspect is important when combining integrating satellite data processing into the field measurements Satellites and satellite data application for the study of Earth features have been demonstrated as the next step of geospatial data application The use of different purposeful processing technology applications of satellite data is one of the vital aspects of space technology advances The use of GNSS GPS technology in industry and MODIS images and data interpretation for agriculture purposes has been presented It was the aim of the book to create an attractive environment by presenting space technology application in the wide areas of Earth study For this purpose some of the book chapters are dedicated toward space technology advances in climate monitoring natural disaster factor detection satellite data processing optimization and GIS technology for meteorology information with the aim of agriculture developments *Application of Nanotechnology in Mining Processes*

Elvis Fosso-Kankeu, Martin Mkandawire, Bhekile B. Mamba, 2022-03-02 **b Application of Nanotechnology in Mining Processes** Nanotechnology has revolutionized processes in many industries but its application in the mining industry has not been widely discussed. This unique book provides an overview of the successful implementation of nanotechnology in some of the key environmental and beneficiation mining processes. This book explores extensively the potential of nanotechnology to revolutionize the mining industry which has been relying for a very long on processes with limited efficiencies. The nine specialized chapters focus on applying nanoflotation to improve mineral processing, effective extraction of metals from leachates or pregnant solutions using nanoscale supramolecular hosts and development of nano adsorbents or nano based strategies for the remediation or valorization of AMD. The application of nanotechnology in mining has so far received little attention from the industry and researchers and this groundbreaking book features critical issues so far under reported in the literature. Application of nanotechnology in mineral processing for the enhancement of froth flotation. Development of smart nanomaterials and application for the treatment of acid mine drainage. Recovery of values from pregnant solutions using nano adsorbents. Valorization of AMD through formation of multipurpose nanoproducts. Audience: Industrial interest will be from mining plant operators, environmental managers, water treatment plants managers and operators. Researchers in nanotechnology, environmental science, mining and metallurgy engineering will find the book valuable as will government entities such as regulatory bodies, officers and environmentalists. **TMS 2015 144th Annual Meeting & Exhibition, Annual Meeting Supplemental Proceedings** The Minerals, Metals & Materials Society (TMS), 2016-12-20

Information Technology - New Generations Shahram Latifi, 2018-04-12 This volume presents a collection of peer reviewed scientific articles from the 15th International Conference on Information Technology New Generations held at Las Vegas. The collection addresses critical areas of Machine Learning, Networking and Wireless Communications, Cybersecurity, Data Mining, Software Engineering, High Performance Computing Architectures, Computer Vision, Health, Bioinformatics and Education. **Applying Theories for Information Systems Research** Tiko Iyamu, 2021-09-26 This book sets out to provide postgraduate researchers with guidance on selecting and applying sociotechnical theories to the study of information systems including how they can be combined to complement each other. Until now it has been difficult to source advice on the application of these theories and there has been no single book that combines multiple theories as this does. Examining the impacts of technological developments and seeking to understand how humans interact with computers and systems is a dynamic field but can often confuse researchers with the overwhelming number of social theories that are utilised to derive insights. Instead the author in this book breaks down some of the most popular theories used to underpin information system research such as activity theory, AT, actor network theory, ANT, contingency theory, CT, diffusion of innovation, DOI theory, structuration theory, ST and the technology acceptance model, TAM. By doing so this book serves to enable a simpler, faster selection of appropriate theories and a more effective and productive application that leads to richer, more rigorous research.

outcomes Written for postgraduates researchers and academics in the fields of information technology and information systems this book provides a valuable resource of sociotechnical research methodologies that will enable and enhance future studies

The Arts and Indigenous Knowledge Systems in a Modernized Africa Runette Kruger,Rudi de Lange,Ingrid Stevens,2018-12-17 This collection derives from a conference held in Pretoria South Africa and discusses issues of indigenous knowledge systems IKS and the arts It presents ideas about how to promote a deeper understanding of IKS within the arts the development of IKS arts research methodologies and the protection and promotion of IKS in the arts Knowledge embedded in song dance folklore design architecture theatre and attire and the visual arts can promote innovation and entrepreneurship and it can improve communication IKS however exists in a post millennium modernizing Africa It is then the concept of post Africanism that would induce one to think along the lines of a globalized cosmopolitan and essentially modernized Africa The book captures leading trends and ideas that could help to protect promote develop and affirm indigenous knowledge and systems whilst also making room for ideas that do not necessarily oppose IKS but encourage the modernization not Westernization of Africa
