To Whom It May Concern:

Background of Tshwane University of Technology:

Tshwane University of Technology (TUT) is one of the largest Universities of Technology in South Africa situated in Pretoria, Gauteng, South Africa. TUT was previously known as Technikon Pretoria. In 2003 Technikon Pretoria merged with 2 previously disadvantaged Technikon's and became the now Tshwane University of Technology.

TUT can accommodate 10 000 students in Residences at the various Campuses. This include Residences in other towns than Pretoria, e.g. Witbank and Nelspruit. (±300 km from Pretoria)

Technikon Pretoria outsourced the Catering Services to private service providers in 1997.

Kagiso Khuleni Catering Service (Part of the Compass Group) was awarded a part of the contract at various Residences.

During my association with Mr. Van Rooyen, he presented himself in a professional manner and showed excellent leadership qualities in managing the contracts, (Residences). His knowledge of the Catering and financial management proved to be extremely useful and he was always available to address problems and provide me with useful information.

Due to the fact that he had previously worked as a Food Service Manager, his hands-on experience in the in the day to day running of a catering facility had a huge impact on his management style.

Part of his duties as Operations Director for Compass Group - KKS at the then Technikon Pretoria included, but not limited to:

- Human Resource Management:
 - Training

Epistemic Freedom in Africa Sabelo Ndlovu-Gatsheni, 2018-06-27

Epistemic Freedom in Africa is about the struggle for African people to think, theorize, interpret the world and write from where they are located, unencumbered by Eurocentrism. The imperial denial of common humanity to some human beings meant that in turn their knowledges and experiences lost their value, their epistemic virtue. Now in the twenty-first century, descendants of enslaved, displaced, colonized and racialized peoples have entered academies across the world, proclaiming loudly that they are human beings, their lives matter and they were born into valid and legitimate knowledge systems that are capable of helping humanity to transcend the current epistemic and systemic crises. Together they are engaging in diverse struggles for cognitive justice, fighting against the epistemic line which haunts the twenty-first century. The renowned historian and decolonial theorist Sabelo J. Ndlovu-Gatsheni offers a penetrating and well-argued case for centering Africa as a legitimate historical unit of analysis and epistemic site from which to interpret the world whilst simultaneously making an equally strong argument for globalizing knowledge from Africa so as to attain ecologies of knowledges. This is a dual process of both deprovincializing Africa and in turn provincializing Europe. The book highlights how the mental universe of Africa was invaded and colonized, the long-standing struggles for an African university and the trajectories of contemporary decolonial movements such as Rhodes Must Fall and Fees Must Fall in South Africa. This landmark work underscores the fact that only once the problem of epistemic freedom has been addressed can Africa achieve political, cultural, economic and other freedoms. This groundbreaking new book is accessible to students and scholars across Education, History, Philosophy, Ethics, African Studies, Development Studies, Politics, International Relations, Sociology, Postcolonial Studies and the emerging field of Decolonial Studies. The Open Access versions Chapter 1 and Chapter 9 available at <https://doi.org/10.4324/9780429492204> have been made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 license.
