It also explores academic administration as well as administrative effectiveness in achieving organizational goals. Highlighting a range of topics such as strategic planning, human resources, and school culture, this multi-volume book is ideally designed for educators, administrators, principals, superintendents, board members, researchers, academicians, policymakers, and students.

Cross-Impact Balances (CIB) for Scenario Analysis Wolfgang Weimer-Jehle, 2023-05-02 Cross Impact Balances (CIB) is a method frequently used for research in companies and in administrations for the systematic construction of qualitative scenarios. This book introduces the fundamentals of the method and uses a clear step-by-step example to explain how scenarios can be constructed with CIB. It describes possible problems in applying the method and offers help for various use cases. It includes a detailed discussion of the design decisions that shape a CIB application and the methods that can be used to collect the necessary data. The application examples presented provide a first impression of the possibilities of the method. A discussion of the strengths and limitations of the method offers guidance on the use cases in which CIB can be profitably applied. The book is valuable for researchers and practitioners in the field of scenario analysis. **Silver Nanomaterials for**

Agri-Food Applications Kamel A. Abd-Elsalam, 2021-08-14 Silver Nanomaterials for Agri Food Applications explores how silver-based nanomaterials are being used to create more efficient systems and products across the agri food sector. In particular, the book covers silver nanomaterials as antimicrobial agents in food science for plant protection and for water purification. Sections highlight the effect of silver nanoantimicrobials and drug synergism on drug-resistant pathogens, offer an overview of silver nanomaterials-based nanosensors in agri food applications, explore the use of silver nanostructures in plant science applications, cover plant protection applications, describe silver nanomaterial applications in the removal of dyes and pesticides from wastewater, and more. Explores the applications of silver-based nanomaterials for plant protection, water treatments, and in food science. Outlines why silver-based nanomaterials have properties that make them beneficial for protection against infectious diseases. Assesses the challenge of integrating silver-based nanomaterials into agricultural systems.

The novel begins with Richard Pape, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
