Britain's Kings & Queens Charan Lal Sahu,2018-07-02 Presidents of India America with Britain s Kings Queens **How Trump Happened** Steven E. Schier,Todd E. Eberly,2020-03-09 The stunning 2016 election and presidency of Donald Trump was decades in the making Three trends since the 1960s created the conditions for his triumph First a growing popular discontent with government long evident in public opinion created a widespread distrust of established leaders and institutions Second America underwent the rise of professional government Governing professionals are an elite built on merit through occupational accomplishment They now dominate interest groups the bureaucracy courts presidency and Congress Many government professionals perceive little need to mobilize the public in the way parties did in previous eras This has furthered the sense of disconnect among the public and created a self reinforcing chain Third political parties and governing institutions are now polarized into rival teams of ideological partisan elites The intense battles between these divergent teams often result in government gridlock These conditions produce ripe opportunities for outsider candidates to mount popular movements against politics as usual How did Donald Trump leverage his outsider status into a 2016 electoral victory Four factors propelled him into the White House First Trump s long career as a public celebrity gave him an identity and brand widely known to the public and which generated massive free media coverage as a candidate Second Trump and his campaign ably used social media to further amplify his message Third decades of polarized political elites governmental professionalism and mounting popular discontent made an outsider message attractive to millions of voters in 2016 Fourth Trump was blessed with a political opponent Hillary Clinton who represented the polarized and professional governing class that Trump rightly saw as an inviting target for his outsider message and demeanor That is how Trump happened

Crimmigrant Nations Robert Koulisch, Maartje van der Woude,2020-03-03 As the distinction between domestic and international is increasingly blurred along with the line between internal and external borders migrants particularly people of color have become emblematic of the hybrid threat both to national security and sovereignty and to safety and order inside the state From building walls and fences overcrowding detention facilities and beefing up border policing and border

controls a new narrative has arrived that has migrants assume the risk for government sponsored degradation misery and death Crimmigrant Nations examines the parallel rise of anti immigrant sentiment and right wing populism in both the United States and Europe to offer an unprecedented look at this issue on an international level Beginning with the fears and concerns of immigration that predate the election of Trump the Brexit vote and the signing and implementation of the Schengen Agreement Crimmigrant Nations critically analyzes nationalist state policies in countries that have criminalized migrants and categorized them as threats to national security Highlighting a pressing and perplexing problem facing the Western world in 2020 and beyond this collection of essays illustrates not only how anti immigrant sentiments and nationalist discourse are on the rise in various Western liberal democracies but also how these sentiments are being translated into punitive and cruel policies and practices that contribute to a merger of crime control and migration control with devastating effects for those falling under its reach Mapping out how these measures are taken the rationale behind these policies and who is subjected to exclusion as a result of these measures Crimmigrant Nations looks beyond the level of the local or the national to the relational dynamics between different actors on different levels and among different institutions Donald Trump (EasyRead Super Large 24pt Edition) , **The Simpsons Secret** Lydia Poulteney,James Hicks,2021-09-28 Have You Ever Wondered How The Simpsons Predict the Future Did The Simpsons really truly predict anything I predict you ll have to purchase this book to get the true story Bill Oakley Simpsons writer and producer 1 New Release in Animated Movies Comedy Movies and Comedy Television Then The Simpsons Secret is the book for you Delve into some of the biggest predictions that came true on the show and just how the Simpsons predict the future Simpson predictions from three eyed fish to presidential elections The Simpsons has been predicting major events with scary accuracy for over three decades From Donald Trump s presidency to Disney buying 20th Century Fox years before it happened People just can t seem to get enough and are eager to know what they are going to predict next This book goes behind the scenes of this adored cartoon series and the family we ve grown to love Between Homer Marge Bart Lisa and the rest of the Simpsons family the show has stolen our hearts and also left us amazed at how often the Simpsons predict the future So how do they do it Is it a crystal ball A fountain of knowledge Have the writers gained the ability to travel through time As shocking as it may seem the answer is actually a little simpler than that The cartoon crew is not in a secret society that can see the future nor have they mastered the art of time travel In The Simpsons Secret learn more about How The Simpsons are able to predict so many major events How the show writers and producers come up with these ideas And so much more about your favorite old school cartoon family If you enjoyed books like Springfield Confidential The Simpsons Family History Friends Forever or The Office you ll love The Simpsons Secret *Trump and Autobiography* Nicholas K. Mohlmann,2021-07-21 The 1970s and 1980s heralded the rise of neoliberalism in United States culture fundamentally reshaping life and work in the United States Corporate culture increasingly penetrated other aspects of American life through popular press CEO autobiographies and management

books that encouraged individuals to understand their lives in corporate terms Propelled into the public eye by the publication of 1989's *The Art of the Deal* ostensibly a CEO autobiography Donald Trump has made a career out of reversing the autobiographical impulse presenting an image of his life that meets his narrative needs While many scholars have sought a political precedent for Trump's rise to power this book argues that Trump's aesthetics and life production uniquely primed him for populist political success through their reliance on the tropes of popular corporate culture Trump and Autobiography contextualizes Trump's autobiographical works as an extension of the popular corporate culture of the 1980s in order to examine how Trump constructs an image of himself that is indebted to the forms genres and mechanisms of corporate speech and narrative Ultimately this book suggests that Trump's appeal and resilience rest in his ability to signify as though he is a corporation revealing the degree to which corporate culture has reshaped American society's interpretive processes

Team Trump and the Evangelical White House G. J. Hocking, 2020-06-26 In *Team Trump and the Evangelical White House* the author paints perhaps a different picture of Donald J. Trump than you will find in the mainstream media With so many Trump Thumping articles opinion pieces and news stories doing the rounds today it is refreshing therefore to get a glimpse into a different side of the Trump White House Surprisingly the author shows a faith friendly president whose relationship with evangelicals goes back nearly two decades As the author proposes throughout Trump's Team has energized evangelical Christians in a way not seen for a long time Some even hark back in their comparisons of the current White House to the Reagan era This was when the well known Moral Majority backed a former Hollywood actor launching Ronald Reagan into the fortieth presidency The book begins by exploring why picking V. P. Pence made sense in bringing evangelicals on board with the Trump agenda You'll also see how the White House welcome mat is once again out for evangelicals as the front door is always open to people of faith Prayer Force One will give you a glimpse perhaps of a side of Donald Trump you may not have seen as he prays with faith leaders These fifteen chapters will look at how the White House was won and may yet be won again with evangelical support in 2020

The China Matrix Lee Smith, 2025-10-14 The U.S. ruling class sold out America to China Can Donald Trump destroy the alliance before it's too late For half a century America's establishment has forged an alliance with the Chinese Communist Party one that enriched elites hollowed out the middle class and imperiled U.S. national security They sold out American workers for cheap labor Wall Street profits and political power But then came Donald Trump In *The China Matrix* New York Times bestselling author and investigative journalist Lee Smith reveals the shocking truth about how U.S. political and corporate elites conspired with Beijing to reshape the global order at America's expense From Henry Kissinger's secret dealings with Mao to the tech oligarchs cozying up to Xi Jinping Smith exposes the web of corruption and betrayal that spans decades He reveals how globalism Silicon Valley and the media worked together to whitewash China's crimes while dismantling American industry and national security But this is also a story of resistance Smith chronicles how Trump's presidency shattered the illusion of a benign China forcing the

establishment to confront the consequences of their own greed From trade wars to TikTok fentanyl to finance The China Matrix details the battle between America First and the entrenched pro China elite and what s at stake in the next chapter of this global showdown With stunning new revelations about Elon Musk s growing influence Joe Biden s China entanglements and the role of U S universities in Beijing s espionage network The China Matrix is a gripping expos of the most dangerous alliance in modern history and the fight to break free before time runs out German-American Relations in the 21st Century Klaus Larres,Ruth Wittlinger,2020-04-22 German American relations have become interesting again U S President Donald Trump s lukewarm policy toward Europe has ensured that the relationship between Berlin and Washington is once again regarded as an important field of scholarship within global politics And yet it was only a few years ago that German American relations seemed to take second place to transatlantic relations in general and the European Union EU USA relationship in particular The advent of Donald Trump as US President in January 2017 has made all the difference Trump s difficult personal relationship with German Chancellor Angela Merkel and his denigration of everything the Western world including the USA itself has stood for since 1949 have given a new significance to German American relations in practice and theory This volume offers an empirical and conceptual analysis of German American relations in the 21st century and highlights the serious and perhaps unprecedented challenges the two countries face at present The authors discuss a number of aspects of the current much more fragile state of German American relations from different perspectives This book was originally published as a special issue of the journal German Politics
