THE ART OF DEFINING LIFE Adrian Gabriel Dumitru, Truth be told we want an over night change in our lives There are many moments when the actual reality is very difficult to handle and looks like we have no escape at all We dream of a quantum jump even if we don't understand the concept very well In few words the reality sucks and we dream of a life that we will never have because deep inside us we don't really believe we will ever meet this reality We have a fake attitude that we are looking for change but this attitude is just a mask for our fears as they are not to be seen So we wonder today if there is a way of how our lives can be changed in what we think that should be better for us

Does it exist a system that we could follow and achieve our dream life But it must be a simple way otherwise we know that we will not follow the path Everything is happening is related to us and everything could happen is also related to us The magic answer because we are looking only for magic answers is the art of defining life Yes this is an art We need to start be honest with ourselves and all the answers to simple questions as why am I fat because I eat too much why my partner is cheating on me because I did not know to be that perfect partner that I had to be and the list of questions will go on We need to start defining what we don't like Once we understand that the change is in our powers and if we really want a change we will start the process of achieving the new life we dream of We don't need to go to a therapist we don't need to study motivational issues of social media and don't even need to read hundreds or thousands of books to start the change process The art of defining our lives means that we have the courage to understand what we don't like and define very clearly how our reality should look like The depression or what we call depression because many things are unclear in our minds is this huge gap between where we are now and where we want to be We are looking for a magic bridge that should help us go very easily from one point to the other The process itself is a very simple one as long as we decide to be honest to us The art of defining yes is an art And also to live is an art Once we decide that we are brave enough to live our lives the dream life the magic will happen cause all the magic is our powers

A Complete Practical Guide to the Art of Dancing Thomas Hillgrove, 1888 New York dancing master Hillgrove acknowledges that he has availed himself of all the books from which he might elicit any valuable information Indeed very little of the manual is original Divided into six parts

Hillgrove's manual discusses the benefits of dance dress deportment and etiquette in the ballroom and the supper room. The second part focuses on positions of the feet and bows and courtesies and provides exercises for the feet and legs. The third and fourth parts discuss the quadrille and provide many figures; the fifth part is devoted to round dances such as the waltz, polka, schottisch, galop, and polka mazurka. The last section focuses on more quadrille figures and other group dances such as the Virginia Reel, Money Musk, and College Hornpipe.
