assessments of individual countries and region wide themes which collectively provide an important and reliable record of Southeast Asia's often dramatic evolution since the early 1970s. Some of the most significant and interesting of these chapters have been carefully selected and brought together in this volume which will be a valuable resource for students of the region. Dr Tim Huxley, Executive Director, The International Institute for Strategic Studies, Asia, Singapore. At a time when Southeast Asia is undergoing rapid changes, this compilation of essays is a must read for all those who seek to understand ASEAN and its member states. Southeast Asia is more than ASEAN and as an inter-state organization that works by consensus, ASEAN can do no more than what its members allow it to do. Bilahari Kausikan, Chairman, Middle East Institute, National University of Singapore and former Permanent Secretary of the Ministry of Foreign Affairs, Singapore. For the last fifty years, ISEAS has been the go-to place for students and scholars from all over the world seeking to develop a deeper knowledge of Southeast Asia. Since it first appeared in 1974, Southeast Asian Affairs has provided thoughtful and timely analysis of critical developments in the region annually. This carefully chosen collection of some of these essays authored over the years brilliantly maps out the contours of change and transformation that have shaped Southeast Asia's recent history and captures the dynamism of this fascinating region. Joseph Chinyong Liow, Dean, College of Humanities, Arts and Social Sciences and Dean, S. Rajaratnam School of International Studies, Nanyang Technological University. The book *Turning Points and Transitions*, commemorating the 50th anniversary of the founding of ISEAS, is like a literary time machine. It takes us back through contemporary expert commentary and analysis to the major forces and events that shaped the political and economic evolution of the Southeast Asia region. A new generation of scholars has replaced typewriters with computers, but many of the roots of the issues and conflicts that ISEAS will be dealing with in the future are to be found in the past that is so ably documented in this volume. Donald E. Weatherbee, Donald S. Russell, Distinguished Professor Emeritus at the University of South Carolina. Water Resources Data for Arkansas, 1979. Rea's Far Eastern Manual ..., 1923. *Selected Water Resources Abstracts*, 1988. *Diesel Progress*, 1956. Environmental Health Perspectives, 1993. **Atlas of Oral Implantology** Pankaj P. Singh, A. Norman Cranin, 2009-12-01. With more than 1,500 illustrations, this edition covers key topics including diagnosis and planning, basic implant surgery, advanced implant surgery, implant prosthodontics, and implant management. Also includes important information on observing and diagnosing patients. **Annual Report** United States. Bureau of Reclamation, Southeast Asian Affairs, 1982. *Indochina Chronology*, 1992. **Reservoir Safety and the Environment** British Dam Society. Conference, 1994. Addresses the concerns of the dam engineering community and summarizes experiences in safety analysis and the works on both embankment and concrete dams. This book provides an analysis on the subjects in the field of reservoir engineering and is designed for those involved in reservoir design and construction both in the UK and overseas. **Journal of the National Cancer Institute**, 1991. Each issue is packed with extensive news about important cancer-related science, policy, politics, and people. Plus there are editorials and reviews by

experts in the field book reviews and commentary on timely topics
