

Effect on capital is hard for almost all countries, the economies have all deteriorated! The worldwide indicators of the economies indicate, for example, that Japan and the European countries are not increasing or adding capital assets.

The economies may also have all been stopped to begin the process of recovery. In this case, since the volume of the investment in R+D components within the range where the economy is not deteriorated, there may be the recovery of the economies.

It is good to be helped from the investment in R+D components. The economies may not have all been stopped, for all countries (Japan).
