

Remote PAN/Tilt/Zoom Video Camera EVI-D70 / EVI-D70P / EVI-D70PW

Sony continues to add choice and flexibility to its industry-leading Pan/Tilt/Zoom camera line up with the introduction of the EVI-D70 and EVI-D70P colour video cameras. With outstanding sensitivity of 1 lux, they can be used indoors or outdoors, even in poorest light.

The EVI-D70 and EVI-D70P combine a high quality colour video camera with the flexibility of a remote pan/tilt/zoom operation, all in a compact easy-to-use package. Incorporating an 115x optical zoom lens, these cameras allow a user to zoom in on a small or distant object with exceptional clarity. Compared to their predecessors, the EVI-D30/D31, the EVI-D70 and EVI-D70P cameras offer a wider pan/tilt range, and a faster pan/tilt mechanism. Above all, these cameras are ceiling-mountable – a first for the popular Sony EVI cameras. The EVI-D70 and EVI-D70P are also equipped with a variety of convenient features such as Auto-ICR function, Alarm function and RS-232C/422 serial control, making them ideal for any remote shooting applications such as distance learning, indoor and outdoor security systems, courtrooms, event venues, concert halls, and more. The EVI-D70 is now available in black (ref. EVI-D70P) or white (ref. EVI-D70PW).

Superb Picture Quality with EXview HAD CCD

The adoption of Sony EXview HAD CCD improves basic camera performance. For example, these cameras offer superb sensitivity of 1 lux (typical), and a low smear level and D-range.

Auto ICR (IR Cut Filter Removal) Function (see fig. 1 overleaf)

The Auto ICR function automatically switches the settings to attach or remove the IR Cut filter for increased sensitivity. With a set level of darkness, the IR Cut filter is automatically disabled (ICR ON), and the infrared sensitivity is increased. With a set level of brightness, the filter is automatically enabled (ICR OFF). The ICR automatically engages depending on the ambient light, allowing the camera to be effective both in day and night environments.

RS-232C or RS-422 Serial Control (VSCA Command)

All camera settings and pan/tilt/zoom functions can be controlled remotely via a PC. With the RS-232C connection, maximum cable length can be extended to 15 m (50 feet), while the RS-422 connection extends this further to 1200 m (4000 feet).

Alarm Function and A/E Spot Setting (see fig. 2 overleaf)

The EVI-D70 and EVI-D70P/EVI-D70PW cameras provide an alarm function that can detect changes within a user-designated area of an image. When a change in A/E, AE or both is detected, these cameras output an alarm trigger signal to the external equipment via the VSCA protocol. In combination with the Spot AE function, these cameras also detect changes in the luminance level, and they output an alarm signal. The detecting area can be applied to any of 16 vertical and 16 horizontal blocks.

*Using any of the pan/tilt/zoom functions will disable the alarm.

Features

- 215x Zoom Ratio (115x Optical, 12x Digital)
- Wide Range, High-Speed Pan/Tilt
