CHAPTER 2:

TERMINOLOGY AND STRUCTURE OF A CLOSE PROTECTION TEAM

Learning outcomes for Chapter 2.

After completing this chapter, you should be able to: identify the typical positions within the close protection team; explain the function of each position in the close protection team; and understand and explain the basic terminology that CPOs use.

The close protection team

Before we describe the various members of the close protection team, we'll define CPOs and the close protection team in more detail.

The close protection team is assigned to carry out an operation with the aim of protecting the principal. The close protection team comprises various CPOs, who are all responsible for the protection of the principal. Different members of the team will accompany the principal to various venues, secure the venues, and supply weapons and equipment. CPOs are members of the close protection team, who are all trained in close protection skills. CPOs may be tasked with a variety of duties. For example, a CPO may be a driver, part of the advance team, or part of the personal escort section (PES) team, or back-up team. The bodyguard is a member of the PES team.

While CPO positions may vary according to the number of CPOs available for an operation, the close protection team will usually include the following positions:

- the personal escort section (PES) team;
- the bodyguard (BG), the team leader (TL), the points man (P), left flank (LF), right flank (RF) and tail or rear;
- the advance team (we'll cover some of the knowledge you'll need in this team);
- the drivers (we'll cover some of the knowledge you'll need as a driver);
- the mobile support team or back-up team (we'll cover some of the knowledge you'll need in this team);
- and the operational commander (OC).

Apart from the principal, the close protection team may need to liaise with support staff, the police, managers of various venues, dignitaries and so on.

The close protection team is similar to a rugby or football team in that every member can make a name for himself or herself in his or her given position in the team while making an equally valuable contribution to the team's goals.

We'll look at each of these positions in the CPO team more detail. Firstly, however, we'll outline the position of close protection detail commander.

Close protection detail commander

The close protection detail commander is responsible for:

guides close protection training;
co-ordinating protection operations;
managing personnel provision;
and liaising with senior management and principals.
