Homicide Stephen K. Boss, 2019-01-10 At a time when mass shootings in schools and other public spaces have become commonplace it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them Because of remarkably effective gun safe policies deaths by firearms on college campuses are 1 000 times less frequent than in the U S public at large Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes this study inventories every documented homicide at a U S college or university between 2001 and 2016 making a compelling argument for using gun safe campuses as guides for broader public safety Public Health Reports , 1996-07

Gold, M.D., 2015-11-17 Perhaps never before has an objective evidence based review of the intersection between gun violence and mental illness been more sorely needed or more timely Gun Violence and Mental Illness written by a multidisciplinary roster of authors who are leaders in the fields of mental health public health and public policy is a practical guide to the issues surrounding the relation between firearms deaths and mental illness Tragic mass shootings that capture headlines reinforce the mistaken beliefs that people with mental illness are violent and responsible for much of the gun violence in the United States This misconception stigmatizes individuals with mental illness and distracts us from the awareness that approximately 65% of all firearm deaths each year are suicides This book is an apolitical exploration of the misperceptions and realities that

attend gun violence and mental illness The authors frame both pressing social issues as public health problems subject to a variety of interventions on individual and collective levels including utilization of a novel perspective evidence based interventions focusing on assessments and indicators of dangerousness with or without indications of mental illness Reader friendly well structured and accessible to professional and lay audiences the book Reviews the epidemiology of gun violence and its relationship to mental illness exploring what we know about those who perpetrate mass shootings and school shootings Examines the current legal provisions for prohibiting access to firearms for those with mental illness and whether these provisions and new mandated reporting interventions are effective or whether they reinforce negative stereotypes associated with mental illness Discusses the issues raised in accessing mental health treatment in regard to diminished treatment resources barriers to access and involuntary commitment Explores novel interventions for addressing these issues from a multilevel and multidisciplinary public health perspective that does not stigmatize people with mental illness This includes reviews of suicide risk assessment increasing treatment engagement legal social and psychiatric means of restricting access to firearms when people are in crisis and when appropriate restoration of firearm rights Mental health clinicians and trainees will especially appreciate the risk assessment strategies presented here and mental health public health and public policy researchers will find *Gun Violence and Mental Illness* a thoughtful and thought provoking volume that eschews sensationalism and embraces serious scholarship *Bibliography on Land Settlement, with Particular Reference to Small Holdings and Subsistence Homesteads* Esther Marie Colvin, 1934
