## **Tinnitus My Quest For More Silence:**

**Tinnitus: My Quest for More Silence!** Monique Koster, 2014-12-16 The author had been really bothered by tinnitus for five years Now she describes what she has done to get rid of it The tinnitus is not completely gone but because she continued her quest she ultimately found a way to lessen its effects Now she does not have to walk all day wearing headphones This booklet tells how she was able to get her life back Monique Koster Apeldoorn 1967 studied at the Art Academy in Arnhem and at the Art Academy in Utrecht Then she took a course in web design and worked as a web designer A few years after the birth of her first child she got tinnitus This book tells us something to be done about it but you should know where you need to find your answers

**Zero Decibels** George Michelsen Foy, 2010-05-18 Have our noise soaked lives driven us mad And is absolute silence an impossible goal or the one thing that can save us A lively tale of one man's quest to find the grail of total quiet I don't know at what point noise became intolerable for me George Michelsen Foy writes as he recalls standing on a subway platform in Manhattan hands clamped firmly over his ears face contorted in pain But only then does Foy realize how overwhelmed he is by the city's noise and vow to seek out absolute silence if such an absence of sound can be discovered Foy begins his quest by carrying a pocket sized decibel meter to measure sound levels in the areas he frequents most the subway the local caf different rooms of his apartment as well as the places he visits that inform his search including the Parisian catacombs Joseph Pulitzer's silent vault the snowy expanses of the Berkshires and a giant nickel mine in Canada where he travels more than a mile underground to escape all human made sound Along the way Foy experiments with noise canceling headphones floatation tanks and silent meditation before he finally tackles a Minnesota laboratory's anechoic chamber that the Guinness Book of World Records calls the quietest place on earth and where no one has ever endured even forty five minutes alone in its pitch black interior before finding the silence intolerable Drawing on history science journalistic reportage philosophy religion and personal memory as well as conversations with experts in various fields whom he meets during his odyssey Foy finds answers to his questions How does one define silence Did human beings ever experience silence in their early history What is the relationship between noise and space What are the implications of silence and our need for it physically mentally emotionally politically Does absolute silence actually exist If so do we really want to hear it And if we do hear it what does it mean to us According to the Environmental Protection Agency 30 million Americans suffer from environment related deafness in today's digital age of pervasive sound and sensory overload Roughly the same number suffer from tinnitus a condition also environmentally related that makes silence impossible in even the quietest places In this respect Foy's quest for silence represents more than a simple psychological inquiry both his queries and his findings help to answer the question How can we live saner healthier lives today Innovative perceptive and delightfully written Zero Decibels will surely change how we perceive and appreciate the soundscape of our lives

*Sounds Senses* Yasser Elhariry, 2021-11-10 *Sounds Senses* is about what happens to the francophone postcolonial condition when sound is taken as a point of departure

for engaging cultural production Offering a synthetic overview of sound studies it dismantles the retinal paradigms and oculocentrism of francophone postcolonial studies By shifting the sensory hermeneutics of perception from the visual the textual and the graphemic to the sonic the auditory and the phonemic the book places cultural production that privileges or otherwise exaggerates stheticized sensorial experiences at the forefront of francophone postcolonialism In the process it introduces two primary theoretical thrusts the unheard and the unintegrated to the project of analyzing extending and rejuvenating francophone postcolonial studies The book reevaluates francophone culture in relation to sound and the experience of sound situating it along the fluid axes of paralingual utterance audio vision voice and narrative speakers Through a range of case studies focusing on parafrancophonics poetry world music cinema the graphic novel popular speech phenomenon and the poetics and politics of transcolonial identification Sounds Senses demonstrates how francophone postcolonial culture is satiated with a glut of unexplored sonic significance

**S.T.O.P.** James Moclair, 2022-04-28 For several years now the world as we know it had completely changed This was because of the Covid 19 virus With this in mind Brian Jameson and his family had held back on taking a holiday abroad for quite a few years B J as he was known to all his friends decided with his twenty fifth wedding anniversary just around the corner he would surprise his wife Shelia and book an all inclusive ten day holiday to the Canary Island of Tenerife For B J and Shelia this will be the holiday of a lifetime and a chance for some fun in the sun and a nice bit of romance And the icing on the cake was this was the first time they were going on holiday without their now two grown up girls What B J and the world weren t prepared for happened after only one day and night into the Jamesons idyllic holiday In short Tenerife became an absolute killing field and mysteriously the majority of the murders were committed by tourists It turned out Tenerife was just a testing ground Soon another country would become the target of bizarre weather events that pushed the boundaries of the laws of physics and even crossed into the paranormal realm Out of the ashes of the catastrophe that not only destroyed B J s but everyone s lives who were on the island Tenerife an odd alliance was also formed More bizarrely this alliance was between B J a physics lecturer a gangland boss a spiritualist and various government departments from around the world For B J and his team they knew the clock was ticking Globally bodies were stacking up and soon without intervention this unknown force would be unstoppable

G Day Neil Baker, 2010-07-22. G Day is basically man's attempt to murder God for leaving the world in such dire conditions. The team of assassins includes a Harvard educated Cyclops his assistant composed of ancient dust named UGH a mysterious woman with a somber history of sexual abuse name None A woman employed by the CIA previously a statue in a museum named Ida a scientist with a half omniscient mind name Dr Sseus twenty seven past presidents and Dr Pangloss the Programmer. God not wanting to take any of the blame assigns the devil to assume his role during the tribulation only he must refer to himself as God. The misadventures that occur only leave the world in an utter mess with absolutely no one in charge and the most unexpected resolution of all.
