Visual Foxpro Report Writer In Action:

The Visual FoxPro Report Writer Cathy Pountney, 2002 Reports are key to a successful software application. It doesn't matter how efficiently the users can enter data, how much information the system can store, or how many complicated calculations the system can process if there's no way to see the final outcome. In *The Visual FoxPro Report Writer*, Cathy Pountney tells you how to use every nook and cranny of the report writer and even shows you how to do things you thought were up to now impossible. If you're serious about quality output from your VFP applications, you can't do without this book.
