

# PINNACLE TitleDeko PRO

For  
Edition / Premiere

## Create sophisticated titles easily

TitleDeko Pro provides you with a simple user interface to generate the look you want easily without sacrificing power. Change any font details at any time—everything remains completely editable. Any detail can be shown in any color, texture or gradient. Manipulate characters, words, rows, layers and pages by scaling, skewing, kerning, leading, justifying and rotating in any direction. TitleDeko Pro's high quality processing gives you superb, fully anti-aliased character resolution.

## Comprehensive text controls

Add edges, shadows and textures to your text. Control the thickness, angle, heat in soft edge and degree of transparency.

## Spelling and grammar checker

TitleDeko Pro's built-in spell checker will make sure you never have to

## Bring in company logos or images as a custom typeface

The custom typeface function in TitleDeko Pro provides an amazingly powerful way of inserting graphics into your titles. Import company logos or any other graphic file as a custom typeface and TitleDeko Pro will then treat them like any other character. This enables you to add shadows, glows and edges as well as dynamically change the scale, angle or skew of your graphics.

## Titles can be static, rolls or crawls of unlimited length.

As well as a static title, TitleDeko Pro allows you to create rolls and crawls of unlimited length. The speeds of the rolls and crawls are completely user definable.

## Take text beyond the straight and narrow

Use the mouse to draw around objects on the screen and have your text lock to the baseline that you create. Typing on a curve, or on the edge of a logo was never so easy. Since the baseline is dynamic, it can be changed even after you're done typing.
