Data Acquisition Techniques Using PCs Second Edition recognises that data acquisition is the core of most engineering and many life science systems in measurement and instrumentation. It will prove invaluable to scientists, engineers, students and technicians wishing to keep up with the latest technological developments. Teaches the reader how to set up a PC based system that measures, analyzes and controls experiments and processes through detailed design examples. Geared for beginning and advanced users with many tutorials for less experienced readers and detailed standards references for more experienced readers. Fully revised new edition discusses latest programming languages and includes a list of over 80 product manufacturers to save valuable time. **Advancements in Antenna Measurement** Martin Krchňák, Marek Češkovič, Pavol Kurdel, Anton Panda, 2023-12-18 This book is a pioneering exploration of a new form of high frequency attenuation chamber that has the potential to revolutionize antenna measurement techniques. The authors present an innovative concept that leverages the classical principle of changing the polarization of radio waves, eliminating the need for traditional non-reflection chambers. By analyzing experimental results and searching for the optimal shape and composition of a depolarization panel, this monograph provides valuable insights into creating a non-reflective environment for accurately measuring the directional properties of antennas. The book delves into the methodology of frequency analysis, optimization of the depolarization panel and the creation of a measuring workplace using this panel. It highlights the crucial attenuation phenomenon of suppressing cross polarization coupling between transmitting and receiving antennas, enabling antenna measurements in any laboratory environment. With its promising results and practical applications in antenna technology, this publication offers a compelling and cutting edge approach to antenna measurement that will captivate researchers, engineers and professionals in the field. **Design, Manufacturing And Mechatronics - Proceedings Of The 2015 International Conference (Icdmm2015)** A Mehran Shahhosseini, 2015-09-23 This book brings together one hundred and seventy nine selected papers presented at the 2015 International Conference on Design, Manufacturing and Mechatronics ICDMM2015 which was successfully held in Wuhan, China during April 17-18, 2015.
