Africa Khodani Matshusa, Llewellyn Leonard, 2024-12-02 This book provides a comprehensive overview of the potential of geotourism in sub-Saharan Africa for promoting social sustainability and ecological justice. It examines the challenges facing the region for geotourism development and the innovative approaches and best practices for overcoming these. Drawing on case studies from the region, the book provides innovative insights that explore the intersection of geotourism with poverty alleviation and job creation. Thematically, it engages with a range of critical issues from leveraging geotourism for local socio-economic development to the intersection of geotourism with environmental conservation efforts. The book delves into the intricacies of geoheritage and geotourism threats in the face of climate change and extractive industries. By examining the untapped potential of geoheritage sites, this book seeks to shed light on opportunities for promoting local sustainable development in economic, social, and environmental dimensions. The book will be of great interest to academic scholars, including undergraduate and postgraduate students, industry, governments, and tourism and conservation organisations. It will be of appeal to individuals in the fields of geotourism, ecotourism, cultural tourism, sustainable tourism, development, geoeducation, and geoscience.

The New World Disorder J. L. Black, Michael Johns, Alanda D. Theriault, 2019-05-02 The new world order as it stood after the apparent end of the Cold War and the collapse of the USSR was greeted with enthusiasm and optimism almost everywhere, but especially in the West. Less than a quarter century later, that optimism has faded dramatically with the rise of populism, nationalism, religious extremism, and civil discord, disrupting political and social norms around the world. This book reveals the extent to which events that began as internal political crises in Europe, the Middle East, and the USA have sent ripple effects reaching into all points of the globe. The projection of liberal democratic predominance in the 1990s has faded as illiberal governance gains support worldwide. Long-standing international trade patterns are disrupted, perhaps permanently, by the weaponization of economic sanctions, real and perceived threats of terrorism, and levels of anxiety everywhere. Severe new weather patterns inflict floods, fires, drought, and hurricanes on populations unused to such extremes. This book describes and analyses many of these phenomena in the hope that better understanding of them may help ameliorate their consequences.

Souverainetés en crise Josiane Boulad Ayoub, Luc Bonneville, 2003 Communications pluridisciplinaires philosophique, sociologique, juridique et politique sur la souveraineté politique qui subit l'impact de la mondialisation avec la diminution des pouvoirs de l'Etat et de la citoyenneté. Les nouvelles formes de régulation sociale dans les démocraties et les mutations des institutions sont examinées. Le cas des Etats africains est aussi abordé.
