Congress. Senate. Committee on the Judiciary, 1962 Visa Procedures of Department of State United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1962 Investigates State Dept visa issuance procedures Focus on the alleged denial of a visa to Michel Struelens chief of the Katanga Information Service for security reasons *Institutional and Policy Dynamics of EU Migration Law* Georgia Papagianni, 2006-08-01 The main objective of this book is to present the on going process of European integration via a comprehensive analysis of the institutional dynamics of and politics linked with the emerging migration law and policy of the European Union More specifically it presents the historical evolution the main institutional legislative and policy steps the position of and interactions among the different actors and the factors impeding the formation of a common policy at EU level On this basis a critical analysis is provided of the main institutional problems the current policy framework the overarching rationale as well as of the content and quality of the nascent EU migration law The book is divided into three parts The first two parts provide a comprehensive study of the institutional framework and the substantive EC EU law respectively The third and final part provides a more general analysis of the policy making process Since the major achievements in the field of migration are recent the book focuses to a great extent on the post Amsterdam era However for reasons of coherence and in order to better evaluate recent developments a concise overview of the origins of this policy is provided Moreover special emphasis is placed on the Schengen acquis since its mark on European affairs has been and remains pronounced Overall the attempt has been to provide an account which is up to date with extensive historical references and combines both an academic and practical perspective to the legal and political issues involved The approach based on the above elements will contribute to a new understanding of the main aspects of EU migration law and its policy ramifications and will be of use to both academics and practitioners alike Migration Control Logics and Strategies in Europe Claudia Finotelli, Irene Ponzio, 2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a

single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions

Law and Migration in a Changing World Marie-Claire Foblets, Jean-Yves Carlier, 2022-04-05 This volume comprises national reports on migration and migration law from 17 countries representing all continents The vast majority of these are countries of immigration which means they face specific challenges in terms of managing migratory flows that are increasingly linked with climate change and scarce natural resources worldwide and they need to find viable ways to integrate humanitarian migration Unlike so many recent publications in the field of international migration law this book brings together reports on diverse countries that are rarely regarded as part of one and the same picture depicting globalized migration in the contemporary era that to a large extent challenges state sovereignty The contributions delineate the legal regimes that individual states are continually developing and modifying with a view to managing and controlling access of individual persons to their respective territories They also show how the restrictive measures that states resort to in the event of failure to manage migration could have a lasting legal impact The General Report preceding the country reports provides a comparative overview of the national reports and is divided into two parts The first more technical in nature addresses the classic questions relating to admission to and residence in a country The second more reflective section examines the relationship between laws and migration in a wider and multidisciplinary perspective To allow a robust comparison the country reports all follow a similarly wide ranging structure to the extent possible they also cover the historical sociological and demographic factors that help explain legal regimes and migratory flows in each country Each country report includes analyses of recent legislative developments and delicate questions that are still awaiting adequate legal responses as well as perspectives for the future
