To the right, there are traditional brick buildings with tiled roofs. In the far distance, a modern skyscraper is visible through a hazy or foggy atmosphere. The street is paved with large, irregular stone tiles.

Visions Of Dystopia In China S New Historical Novels:

Visions of Dystopia in China's New Historical Novels Jeffrey C. Kinkley, 2014-11-18 The depiction of personal and collective suffering in modern Chinese novels differs significantly from standard Communist accounts and many Eastern and Western historical narratives Writers such as Yu Hua Su Tong Wang Anyi Mo Yan Han Shaogong Ge Fei Li Rui and Zhang Wei skew and scramble common conceptions of China s modern development deploying avant garde narrative techniques from Latin American and Euro American modernism to project a surprisingly un Chinese dystopian vision and critical view of human culture and ethics The epic narratives of modern Chinese fiction make rich use of magical realism surrealism and unusual treatments of historical time Also featuring graphic depictions of sex and violence as well as dark raunchy comedy these novels reflect China s recent history re presenting the overthrow of the monarchy in the early twentieth century and the resulting chaos of revolution and war the recurring miseries perpetrated by class warfare during the dictatorship of Mao Zedong and the social dislocations caused by China s industrialization and rise as a global power This book casts China s highbrow historical novels from the late 1980s to the first decade of the twenty first century as a distinctively Chinese contribution to the form of the global dystopian novel and consequently to global thinking about the interrelations of utopia and dystopia

Chinese and Western Literary Influence in Liu Cixin's Three Body Trilogy Will

Peyton,2021-07-30 Chinese and Western Literary Influence in Liu Cixin's Three Body Trilogy examines Liu Cixin's acclaimed trilogy a Chinese science fiction epic whose translation is exceedingly popular in the Western world Will Peyton argues that the ingenuity of Liu's writing is found in its conscious engagement with translated Western fiction rather than as one might expect in Chinese language science fiction of the past The book illustrates how contemporary Chinese fiction since the economic opening of China in the late 1980s is deeply and complexly influenced by various strains in Western literary and intellectual thought an area that scholars of Chinese literature have tended to neglect Providing a lucid and succinct close reading and textual analysis of Three Body trilogy the book also makes reference to broader ideas and themes in modern Chinese and Western intellectual history

China's Avant-Garde,

1978-2018 Daria Berg, Giorgio Strafella, 2022-11-11 This book examines how China's new generation of avant garde writers and artists are pushing the boundaries of vernacular culture creatively appropriating artistic and literary languages from global cultures to reflect on reform era China's transformation and the Maoist heritage. It explores the vortex of cultural change from the launch of Deng Xiaoping's reforms in 1978 to Xi Jinping establishing his leadership for life in 2018. The book argues that China's new avant garde adopt transcultural forms of expression while challenging the official discourse of Xi Jinping's regime which promotes cultural nationalism and demands that cultural production in China embodies the essence of the Chinese nation. The topics range from body art, women's poetry and boys' love literature to Tibetan fiction and ceramic art. The book shows how the avant garde use the new digital media to bypass government censorship transcending China's virtual frontiers while breaking new ground for an emerging public sphere. Overall, the book provides a rich picture of the nature of China's avant garde art and literature and the challenges it poses for the Chinese government. A New Literary History of Modern China David Der-wei Wang, 2017-05-22 Literature from the Chinese perspective makes manifest the cosmic patterns that shape and complete the world, a process of worlding that is much more than mere representation. In that spirit, **A New Literary History of Modern China** looks beyond state sanctioned works and official narratives to reveal China as it has seldom been seen before through a rich spectrum of writings covering Chinese literature from the late seventeenth century to the present. Featuring over 140 Chinese and non-Chinese contributors from throughout the world, this landmark volume explores unconventional forms as well as traditional genres: pop song lyrics and presidential speeches, political treatises and prison house jottings, to name just a few. Major figures such as Lu Xun, Shen Congwen, Eileen Chang, and Mo Yan appear in a new light, while lesser known works illuminate turning points in recent history with unexpected clarity and force. Many essays emphasize Chinese authors' influence on foreign writers as well as China's receptivity to outside literary influences. Contemporary works that engage with ethnic minorities and environmental issues take their place in the critical discussion alongside writers who embraced Chinese traditions and others who resisted. Writers' assessments of the popularity of translated foreign language classics and avant garde subjects refute the notion of China as an insular and inward looking culture. A vibrant collection of contrasting voices and points of view, **A New Literary History of Modern China** is essential reading for anyone seeking a deeper understanding of China's literary and cultural legacy.

Ideology and Form in Yan Lianke's Fiction Haiyan Xie, 2023-02-10 Xie analyzes three novels by the international award winning Chinese writer Yan Lianke and investigates how his signature mythorealist form produces textual meanings that subvert the totalizing reality prescribed by literary realism. The term mythorealism, which Yan coined to describe his own writing style, refers to a set of

literary devices that incorporate both Chinese and Western literary elements while remaining primarily grounded in Chinese folk culture and literary tradition In his use of mythorealism carrying a burden of social critique that cannot allow itself to become political Yan transcends the temporality and provincality of immediate social events and transforms his potential socio political commentaries into more diversified concerns for humanity existential issues and spiritual crisis Xie identifies three modes of mythorealist narrative exemplified in Yan s three novels the minjian folk mode in *Dream of Ding Village* the allusive mode in *Ballad Hymn Ode* and the enigmatic mode in *The Four Books* By positioning itself against an ambiguous articulation of social determinants of historical events that would perhaps be more straightforward in a purely realist text each mode of mythorealism moves its narrative from the overt politicality of the subject matter to the existential riddle of negotiating an alternative reality A groundbreaking study of one of contemporary China s most important authors that will be of great value to scholars and students of Chinese literature

Beyond Imperial Aesthetics Mayumo Inoue, Steve Choe, 2019-10-22 Observing that the division between theory and empiricism remains inextricably linked to imperial modernity manifest at the most basic level in the binary between the West and Asia the authors of this volume re-examine art and aesthetics to challenge these oppositions in order to reconceptualize politics and knowledge production in East Asia Current understandings of fundamental ideas like race nation colonizer and the colonized and the concept of Asia in the region are seeped with imperial aesthetics that originated from competing imperialisms operating in the twentieth and twenty first centuries Such aesthetics has sustained both colonial and local modes of perception in the formation of nation states and expanded the reach of regulatory powers in East Asia since 1945 The twelve thought provoking essays in this collection tackle the problematics that arise at the nexus of aesthetics and politics in four areas theoretical issues of aesthetics and politics in East Asia aesthetics of affect and sexuality the productive tension between critical aesthetics and political movements and aesthetic critiques of

sovereignty and neoliberalism in East Asia today If the seemingly universal operation of capital and militarism in East Asia requires locally specific definitions of biopolitical concepts to function smoothly this book critiques the circuit of power between the universalism of capital and particularism of nation and culture Treating aesthetic experiences in art at large as the bases for going beyond imperial categories the contributors present new modes of sensing thinking and living that have been unimaginable within the mainstream modality of Asian studies a discipline that has reproduced the colonial regime of knowledge production By doing so Beyond Imperial Aesthetics illuminates the aesthetic underside of critical theory to uncover alternative forms of political life in East Asia This much needed volume takes readers on an erudite and challenging journey Along the way its theoretically minded authors explore what a future liberated from the Cold War shackles of securitized institutions and capitalist exploitation as well as concomitant epistemologies of aestheticized domination might look like in East Asia Todd Henry UC San Diego Beyond Imperial Aesthetics is an impressive intervention between art politics and theoretical reflection in contemporary East Asia The project convincingly articulates various sites of resistance to the postwar US hegemon throughout East Asia The editors are to be congratulated for putting together such a timely and compelling work Richard Calichman City College of New York
