Take out your Windows 7 DVD and insert it into the computer (if your computer does not have a DVD drive, [please read the USB installation guide](#)). If the installation does not run automatically, it is necessary to restart your computer and, in some cases, set up a booting priority in the BIOS (press the **Delete**, **F2** or **F12** button immediately after restarting the computer) so that your DVD drive is at the top of the list (Pic. 1). The BIOS version is based on your motherboard and the booting priority is usually found under the Boot option.
