If you have not opened it before it may ask you a few questions in some dialogue boxes, just read the questions and click the Next/Yes/OK buttons that come up. Make sure you don't select **Copy Protect** music or **Rip CD** when inserted. And if it asks **Keep my current format settings**, make sure that one is selected.

If you cannot see the File menu for Media Player at the top of the screen then click on the **Maximize** button  at the top right of the screen.  Go to **Tools – Options**. Click on **Privacy**. Make sure that the first four boxes are ticked. This will enable your music files to be named automatically and uploaded when you are on the Internet.

Click on **Rip Music** Tab. Check that your music is being saved to your **My Music** folder in your **My Documents** folder. If it isn't then click on **Change**, look for **My Documents** and then **My Music**, click once on **My Music** to select it and click **OK**. Your music will now save to **My Music** folder.

If you prefer music files to be saved as MP3s rather than WMA then click on the File menu tab and change Format from Windows Media Audio to MP3 by clicking on the Windows menu.
