Enterprise Mac Administrators Guide Charles Edge, Zack Smith, Beau Hunter, Roderick Smith, 2010-05-10 Charles Edge, Zack Smith and Beau Hunter provide detailed explanations of the technology required for large scale Mac OS X deployments and show you how to integrate it with other operating systems and applications. Enterprise Mac Administrator's Guide addresses the growing size and spread of Mac OS X deployments in corporations and institutions worldwide. In some cases this is due to the growth of traditional Mac environments but for the most part it has to do with switcher campaigns where Windows and or Linux environments are migrating to Mac OS X. However there is a steep culture shock with these types of migrations. The products that are used are different the nomenclature is different and most importantly the best practices for dealing with the operating system are different. Apple provides a number of tools to help automate and guide IT toward managing a large number of Mac OS X computers it has since before Mac OS X was initially released. However if you want to put together all of the pieces to tell a compelling story about how to run an IT department or a deployment of Macs you need to compile information from a number of different sources. This book will provide explanations of the technology required. Provides complete solutions for the large and medium scale integration of directory services imaging and security. Complete guide for integrating Macs and Mac OS X into mixed environments with confidence and no down time. One stop volume for IT.
