Jacobson, 2006-06-14 In the beginning for me winemaking was a romanticized notion of putting grape juice into a barrel and allowing time to perform its magic as you sat on the veranda watching the sunset on a Tuscan landscape For some small wineries this notion might still ring true but for the majority of wineries commercially producing quality wines the reality of winemaking is far more complex The persistent evolution of the wine industry demands continual advancements in technology and education to sustain and promote quality winemaking The sciences of viticulture enology and wine chemistry are becoming more intricate and sophisticated each year Wine laboratories have become an integral part of the winemaking process necessitating a knowledgeable staff possessing a multitude of skills Science incorporates the tools that new age winemakers are utilizing to produce some of the best wines ever made in this multibillion dollar trade A novice to enology and wine chemistry can find these subjects daunting and intimidating Whether you are a home winemaker a new winemaker an enology student or a beginning to intermediate laboratory technician putting all the pieces together can take time As a winemaker friend once told me winemaking is a moving target Introduction to Wine Laboratory Practices and Procedures was written for the multitude of people entering the wine industry and those that wish to learn about wine chemistry and enology **Laboratory Manual for Wineries** Charles G. begun and how at last it has been triumphantly fulfilled is the story told in this book It is a story that touches on nearly every section of the United States and includes the whole range of American society from the founders to the latest immigrants Germans in Pennsylvania Swiss in Georgia Minorcans in Florida Italians in Arkansas French in Kansas Chinese in California all contributed to the domestication of Bacchus in the New World So too did innumerable individuals institutions and organizations Prominent politicians obscure farmers eager amateurs sober scientists these and all the other kinds and conditions of American men and women figure in the story The history of wine in America is in many ways the history of American origins and of American enterprise in microcosm While much of that history has been lost to sight especially after Prohibition the recovery of the record has been the goal of many investigators over the years and the results are here brought together for the first time In print in its entirety for the first time A History of Wine in America is the most comprehensive account of winemaking in the United States from the Norse discovery of native grapes in 1001 A D through Prohibition and up to the present expansion of winemaking in every state

A History of Wine in America from the Beginnings to Prohibition Thomas Pinney, 1989-01-01 Tells the story of vitaculture and winemaking in America and discusses the individuals organizations and institutions associated with the enterprise

The Wine Pioneers Anton Massel, 2008 At first there were the horticulturists and wine growers then came the wine makers the coopers and the cellar masters Inevitably there were wine shippers and wine merchants Chemists and biologists added their skills in the past two centuries and only very recently came the oenologists and the professional wine tasters Wine writers play an important role in today s wine trade and there were always wine connoisseurs and wine snobs From 5000BC to the modern day this book provides a chronological history of the wine pioneers through the ages
