Intellectuals and Society Thomas Sowell, 2012-03-06 The influence of intellectuals is not only greater than in previous eras but also takes a very different form from that envisioned by those like Machiavelli and others who have wanted to directly influence rulers It has not been by shaping the opinions or directing the actions of the holders of power that modern intellectuals have most influenced the course of events but by shaping public opinion in ways that affect the actions of power holders in democratic societies whether or not those power holders accept the general vision or the particular policies favored by intellectuals Even government leaders with disdain or contempt for intellectuals have had to bend to the climate of opinion shaped by those intellectuals Intellectuals and Society not only examines the track record of intellectuals in the things they have advocated but also analyzes the incentives and constraints under which their views and visions have emerged One of the most surprising aspects of this study is how often intellectuals have been proved not only wrong but grossly and disastrously wrong in their prescriptions for the ills of society and how little their views have changed in response to empirical evidence of the disasters entailed by those views

Fracture-control Guidelines for Welded Steel Ship Hulls Stanley Theodore Rolfe, David M. Rhea, Bogdan O. Kuzmanovic, 1974 The Report provides comprehensive toughness criteria for welded ship hulls that can be used for steels of all strength levels Because of the fact that stress concentrations are always present in large complex welded structures and therefore high stresses as well as discontinuities or flaws will be present in welded ship hulls primary emphasis in the proposed fracture control guidelines is placed on the use of steels with moderate levels of notch toughness and on the use of properly designed crack arresters In general concepts of fracture mechanics are used to develop the material toughness level that is required for fail safe operation of welded ship hulls
