"The Perfect Repeater"

Outstanding natural pointing qualities, effortless operation, trouble-free performance and time-proven durability have gained the WINCHESTER Model 12 a world-wide reputation as "The Perfect Repeater". Pride of more than one million sportsmen, and unequalled in popularity of all shotguns and unequaled in popularity for marsh, field and upland shooting, at the traps or on the skeet fields.

Only the finest of gun steels—WINCHESTER Proof (Chrome Molybdenum) Steel—is used in the manufacture of your Model 12. Individual parts are carefully treated to exactly the right hardness for strength and wearing qualities... then machined and gauged to the strictest tolerances, superbly finished and fitted for smoothest operation. The graceful receiver is forged from a single billet of steel and closed at both rear and top for utmost protection. Model 12's barrel is noted for its strength, uniformity and consistency of pattern performance. Stock and slide handle are of carefully finished American walnut.

No other take down system compares with that of the Model 12 in speed, simplicity and facility. No tools are required and both sections are of nearly the same length. Equally popular, is the ease with which your Model 12 is loaded or unloaded and its simple, jam-proof loading system from magazine to chamber. The magazine holds six Super-Seal crimp shells or five of the rolled crimp type. With one round in the chamber, your Model 12 is either a seven or six-shot repeater.

For maximum protection while reloading, Model 12 has three automatic safety features. (1) When the action is in rearward position, the firing pin is locked in the breech

bolt, with point fully withdrawn. (2) At the slightest rearward motion of the slide handle, hammer is immediately secured until action is again closed. (3) When the gun is fired, recoil disengages the action slide lock and slide bar, permitting the action to be manipulated for reloading. If the hammer should fall on an empty chamber, however, or in case of a misfire, a slight forward push on the slide handle is necessary to disengage bar and slide. This provides vital protection in case of a "hang fire."

There is a Model 12 for every shooting need in many combinations of gauge, barrel length and choke... and in Field, Magnum Duck, Skeet, Trap and Pigeon grades. Whatever your choice of style—in the field or in the gun rack, this sleek, splendidly performing repeater will make you proud to be its owner.
