Once again the adventures of Sherlock Holmes and Dr. Watson continue in this acclaimed anthology series with thirty-seven new tales presented in two companion volumes more Holmes than could fit into one book. In 2015 *The MX Book of New Sherlock Holmes Stories* was first published, a huge three-book set featuring over sixty new traditional Holmes exploits all set within the correct time period. Soon the demand for even more traditional Holmes adventures led to further volumes. The next year brought Part IV 2016 Annual and then Part V Christmas Adventures. In spring 2017 there was Part VI 2017 Annual and that fall revealed the massive two-volume set Parts VII and VIII *Eliminate the Impossible*. Now we present another two simultaneous volumes, Parts IX and X 2018 Annual 1879-1895 and 1896-1916. There can be no argument that Sherlock Holmes is one of the most famous and recognizable figures in the world. There were only sixty narratives brought to us by the original Literary Agent, Sir Arthur Conan Doyle. Clearly that is not enough. The Collected Papers of Sherlock Holmes - Volume 3 David Marcum, 2022-02-15. At the age of ten in the mid-1970s David Marcum discovered Mr. Sherlock Holmes and from that point he knew that the original 60 Canonical adventures would never be enough. This coupled with his life-long desire to write meant that eventually he would find a way to add new stories to *The Great Holmes Tapestry*. The years passed and David collected, read, and chronologized literally thousands of traditional Canonical Sherlockian pastiches. Then in 2008, with time on his hands while laid off from his civil engineering job during the Great Recession, David finally found his way to Watson's Tin Dispatch Box, producing *The Papers of Sherlock Holmes*. These first nine short stories originally sat on a shelf in his Holmes book collection before he eventually decided to share them with others. That first collection was initially published by a small press in 2011 and then in

2013 by the premiere Sherlockian publisher MX Publishing and after that there was no turning back Since then in addition to editing over 60 volumes most of which are Sherlockian anthologies David has written and published over 80 Sherlockian adventures in a variety of anthologies and magazines Now these are being collected along with a few others that haven't been seen before These first five volumes contain the majority of David's Holmesian stories so far with additional adventures to be collected and published as part of this ongoing series in 2022 Join us as we return to Baker Street and discover more authentic adventures of Sherlock Holmes the man described by the estimable Dr Watson as the best and wisest whom I have ever known

Sherlock Holmes, Doctor Watson's Rucksack Tom Cavenagh, 2020-11-18 My name is Arthur Pendrake which I know sounds very British but I'm actually an American living at the present time in the small village of Lavenham a bit north of London The millennials if they knew me would probably call me retro and they'd be right because I have always been enamored of the old days and ways That would explain why I chose to buy a small cottage on the outskirts of Lavenham a sleepy little hamlet with numerous lovely gardens and a funny little building that is trying to fall down but remains propped up by the buildings on either side of it I'm a freelance journalist who has made a decent well actually better than that living hunting out stories of crime corruption sugary human interest intrigue and oddities of the past More specifically anything that I think some segment of the population might want to read about More specifically than that anything that I can convince someone to publish and pay me a few quid for my work My dream we all have them has always been to publish my own magazine I've tried books but they take too long If I invest a year of my life

writing one and no one wants to read it what do I have Even magazines are a distinct risk considering the incessant dumbing down of the reading portion of the world s population A writer can only hope to reach the dwindling numbers who do not want all knowledge delivered in ten second snatches on some form of electronic media
