For over 2,000 years, philosophers, teachers, scientists, and everyday people have been interested in manifestation and attraction concepts. And now, science and quantum physics support many of the original observations about how people are connected to the vast universe of energy and information. But how can we update the centuries of wisdom to a modern, practical, and usable manifestation process to achieve our individual goals? Richard used his research expertise to analyze the historical teachings and the everyday evidence to create a new, practical manifestation concept with simple-to-use practices. If you believe that you are what you think and attract what you think about, there is now a process to manage your thoughts, choices, and actions to achieve your goals. We see the evidence of successful manifestation all around us: people achieving their goals every day. Manifestation has three stages: thoughts, process, and outcomes. We can easily observe the original thoughts and the eventual outcomes. But what happens in the middle to create a successful outcome? What is the formula for success? Richard has reverse-engineered manifestation; we can observe and fill in the steps that have been missing for how to transform thoughts into successful outcomes. Every thought does not become your reality. But there is a process and math-based goal to achieve the critical balance of positive thoughts to negative thoughts to enter the successful manifestation zone. It's almost that simple: if you have the right guidance and a way to monitor your progress. Manifestation Math is a practical, simple process to manifest goals using the basic math of the universe. As Willie Nelson said, if you replace negative thoughts with positive thoughts, you will have a positive result. Manifestation Math has created a simple process to bring this wisdom to everyone. *Unity in Diversity: a New Dawn* Rodolfo León, 2019-09-11. In this clear, reasonable, satisfying explanation of the meaning of life, which is essentially about love, León explores topics such as our connection to God, human diversity, evil, death, purpose, and making a difference. We have all this wonderful technology that allows us to connect easily with one another, regardless of our DISTANCES, but now we need a system of beliefs that allows us to connect easily with one another, regardless of our DIFFERENCES. In other words, we now need beliefs to match our technology. That is what this new dawn is all about.
