## **Wits 2016 Undergraduate Application Form:**

**Open and Distance Education in Asia, Africa and the Middle East** Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18  
This book is open access under a CC BY 4.0 license. This book describes the history, structure and institutions of open and distance education in six countries: China, India, Russia, Turkey, South Africa and South Korea. It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries. It also explores the similarities and differences between how their open and distance higher education systems are managed and structured. This book is the second in a series following *Open and Distance Education in Australia, Europe and the Americas* (Springer 2018). Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems. In a digital era characterized by the growing use of online open and distance education, this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services. In addition, it offers a valuable reference guide for researchers, academics and students interested in understanding the different approaches to open and distance education.

*The Bloomsbury Handbook of Diversity, Crises and Transformative Leadership in Higher Education* Yusef Waghid, Mary Drinkwater, 2024-09-05  
The *Bloomsbury Handbook of Diversity, Crises and Transformative Leadership in Higher Education* explores the intersections of contemporary understandings and practices of leadership within higher education around diversity, inclusion and indigeneity. With contributions from four continents, the handbook brings together diverse perspectives to explore a range of topics including access, equity, cultural competence, decolonisation, student activism and indigenous insights. Countries covered include Australia, Canada, Czech Republic, India, New Zealand, Pakistan, South Africa and the USA. The book forms part of the *Bloomsbury Handbooks of Crises and Transformative Leadership in Higher Education* collection brought together by Mary Drinkwater.

*Understanding the Higher Education Market in Africa* Emmanuel Mogaji, Felix Maringe, Robert Ebo Hinson, 2020-03-06  
This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges and policies affecting higher education across the continent, their marketing strategies and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism and competition in higher education in Africa, conceptions of the commodification of higher education in Africa and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and

academic researchers the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers
