of the flammable fuel air mixture in the tank The source of the ignition was most likely an electrical short circuit The Safety Board in the course of its investigation inspected numerous airplanes to check on electrical wiring What became clear is that wiring is a huge problem in aviation Ed Block a Defense whistleblower tried in the 1980s to draw attention to the problem but was fired instead of awarded The military changed its wire specifications after massive problems on commercial airplanes nothing changed Almost six years after the accident he FAA has not done much How many more people have to die by wire before serious measures are taken
