**Applying a Multi-skilled Soldier (MSS) Concept to the Stryker Brigade
Combat Team (SBCT)** John T. Nelsen, 2003 The general purpose of this study was to deepen and broaden thinking about
the nature and implications of possible Multi Skilled Soldier MSS Concept implementation Specific objectives were 1 to
determine applicability of the MSS to the Stryker Brigade Combat Team SBCT as it might be implemented in Initial Entry
Training IET and 2 to prototype MSS Concept implementation for the SBCT considering possible implementation for the
Future Force The report also defines the MSS shows how the MSS Concept might fit conceptually within a larger Army
training education and professional development model for Soldiers of all ranks offers an MSS Program design for IET and
crafts actionable recommendations regarding general MSS implementation for IET The study concludes that the MSS
Concept is fully applicable to the SBCT as well as the so called Current Force It also concludes that MSS implementation
would have a significant salutary effect on unit training readiness postures across the force This study relied heavily on
insights and analysis gained from interviews with groups of senior NCOs and officers within the 3rd Brigade SBCT 2nd
Infantry Division Ft Lewis WA during September 2002
