Tourism and the Millennium Development Goals Jarkko Saarinen,Christian M. Rogerson,Haretsebe Manwa,2013-10-31 In 2000 United Nations adopted the Millennium Development Goals UN MDGs committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015 Related to the UN MDGs tourism is increasingly seen as a promising tool for poverty reduction ensuring environmental sustainability and developing a global partnership for development for example Thus the industry has become an important policy tool for community and regional development in many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level However there are still many challenges to overcome in the relationship between tourism industry development and poverty reduction This book aims to discuss the promises challenges and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development This book is an extended version of a special issue published in Current Issues in Tourism

The Politics of Bioeconomy and Sustainability Mairon G. Bastos Lima,2021-04-15 This book addresses the underexposed political dimensions of bioeconomy promotion Who wins and who loses How are institutions being shaped and by whom Drawing from experiences since the earlier days of biofuels promotion it explores in unprecedented detail the global drive away from fossil fuels and towards a biomass based economy Multipurpose agriculture gains ever more traction as countries create new bio based value chains or rather value webs Governance in this regard proves to be key for steering developments towards inclusive agri food biomass systems instead of fueling just a handful of flex crops ridden with social equity and other environmental issues Based on a rich global level analysis of bioeconomy promotion and three in depth case studies of key emerging economies Brazil India

and Indonesia the book also innovatively examines sustainability politics in Global South democracies Ultimately this book is about finding the politics for a fairer bioeconomy in the years and decades to come
