gesture comfort or discipline how they direct their posture gaze or physical location to indicate degrees of attention and how they use the tone of their voice to communicate empathy frustration disapproval or enthusiasm Comparing teachers across schools and over time they offer an illuminating analysis of the gestures that comprise a total body language something that while hardly ever explicitly discussed the teachers all share to a remarkable degree Showcasing the tremendous importance of and dearth of attention to this body language they offer a powerful new inroad into educational study and practice a deeper understanding of how teaching actually works no matter what culture or country it is being practiced in *Creating Inclusive Learning Environments for Young Children* Clarissa Willis, 2009 Invites teachers to apply appropriate strategies in classroom environments for young children with special needs setting the stage for future school success Toby Karten Author Inclusion Strategies That Work This book helps teachers better understand specific disabilities and intentional support mechanisms that encourage ALL children to learn and grow It is a resource that I will use for years to come Kim Hughes Therapeutic Preschool Teacher Project Enlightenment Wake County Public Schools NC Research based techniques to help all children thrive in early childhood settings More and more frequently early childhood educators teach children with special needs yet few have the necessary background knowledge and experiences to meet the challenge of teaching in an inclusive classroom *Creating Inclusive Learning Environments for Young Children* gives teachers targeted information strategies and activities to address the learning needs of all children including those at risk The author provides in depth information on a variety of disabilities including autism vision and hearing loss communication delays and sensory integration disorders Each chapter offers a glossary of terms a list of suggested resources and a brief summary of relevant research Aligned with NAEYC and DEC standards this engaging and comprehensive resource helps readers Create appropriate inclusive environments and establish daily schedules Build relationships among peers with and without disabilities Work productively with families special education teachers and paraprofessionals Understand Individualized Education Programs and Response to Intervention This handbook gives preschool and kindergarten teachers the tools to support all young learners by building relationships and providing positive classroom experiences Vygotsky's Legacy Margaret E.
