Proceedings of the 3rd International Conference on Language, Literature, and Cultural Education (ICON-LLCE 2023) Ari Ambarwati, Layli Hidayah, Frida Siswiyanti, Prayitno Tri Laksono, Helmi Wicaksono, 2023-11-21 This is an open access book The role of the Indonesian language holds paramount significance as it serves as an instrumental medium for educating the populace It retains a steadfast position as a conduit for national communication a unifying force and a vital instructional medium for the nation s educational endeavors In the contemporary epoch of globalization and the advent of Industry 4 0 global communication transcends temporal and spatial boundaries with language assuming a preeminent role therein The fortification and

consolidation of Indonesian's role in this communicative milieu are imperative. Yet given the intricate nature of the Indonesian populace, the augmentation and fortification of Indonesian's role necessitates sustained endeavors to ensure the preservation of Indonesian cultural identity within the nation's human resources. Diligent initiatives to fortify Indonesian as the lingua franca of scientific discourse in this era of globalization demand concerted engagement from various stakeholders including the Indonesian Language and Literature Education Study Program (PBSI) within the Faculty of Teacher Training and Education (FKIP) at the Islamic University of Malang. The forthcoming Third International Conference on Language, Literature and Cultural Education (ICON LLCE) will center its focus on augmenting the role of Indonesian language towards the advancement of scientific inquiry and global civilization. The digital transformation, which has pervaded Indonesian society, has been markedly accelerated by the global pandemic that has gripped the world since early 2020. Communities worldwide have transitioned their activities to virtual realms, necessitating adaptability to the digital milieu across diverse sectors encompassing commerce, industry, governance, and education. This transition is marked by an increasing reliance on the digital domain, internet infrastructure, and intelligent computing systems, including artificial intelligence, which Bill Gates heralds as commensurate in impact to the advents of mobile telephony and the internet. The Age of AI has begun. 2023. The digital transformation denotes a comprehensive process wherein organizations integrate digital technology across all facets of operation, thus altering the manner in which value is delivered to Indonesian-speaking constituencies. In the Indonesian context, this entails the fundamental adoption of innovative digital technologies to effect cultural and operational shifts that harmonize with evolving demands, habits, and exigencies of the Indonesian-speaking populace. Significantly, this encompasses an expansive online Indonesian dictionary, the integration of information technology and the internet in the pedagogical sphere of teaching Indonesian Language and Literature, and the infusion of artificial intelligence into the educational process for Indonesian as a Second Language (BIPA). Additionally, the repository of books and reference materials in Indonesian will be transitioned to a cloud-based mode, facilitating universal accessibility. In summation, the Internet of Things (IoT) precipitates a discernible transformation in the modes of access and utilization of the Indonesian language, particularly within the domain of scientific inquiry. From the foregoing elucidation, it is underscored that Indonesian, as the official language of the Indonesian state, assumes a pivotal and strategic role in fortifying the national identity and safeguarding the enduring vitality of the language itself. In light of this, the Indonesian Language and Literature Education Study Program (PBSI) within the Faculty of Teacher Training and Education (FKIP) at the University of Islam Malang will convene the third iteration of the International Conference on Language, Literature and Cultural Education (ICON LLCE) in September 2023, under the overarching theme of "Augmenting the Role of Indonesian for the Advancement of Science and Global Civilization." This international conference, which has been ongoing since 2015, succeeds the second edition convened in November 2021. Through this imminent iteration of ICON LLCE, distinguished scholars and academics representing various global locales will convene to engage in

thoughtful deliberations pertaining to initiatives aimed at safeguarding and fortifying the enduring pertinence and robustness of the Indonesian language within the ambit of forthcoming intellectual pursuits and the broader global cultural discourse
