Nielson, Jack C. McCormac, 2017-02-28 When teaching structural analysis some contend that students need broad exposure to many of the classical techniques of analysis while others argue that learners benefit more from the computer based analysis experiences that involve parametric studies Structural Analysis Understanding Behavior strikes a balance between these viewpoints Students may no longer need to know every classical technique but they still need a fundamental knowledge of the concepts which come from studying a subset of classical techniques This foundation is then strengthened by the use of structural analysis software in activities designed to promote self discovery of structural concepts and behaviors
