Arts and Business Elena Raviola, Peter Zackariasson, 2016-10-04 Arts and Business aims at bringing arts and business scholars together in a dialogue about a number of key topics that today form different understandings in the two disciplines Arts and business are many times positioned as opposites Where one is providing symbolic and aesthetic immersion the other is creating goods for a market and markets for a good They often deal and struggle with the same issues framing it differently and finding different solutions This book has the potential of offering both critical theoretical and empirical understanding of these subjects and guiding further exploration and research into this field Although this dichotomy has a well documented existence it is reconstructed through the writing out of business in art and vice versa This edited volume distinguishes itself from other writings aimed at closing the gap between art and business as it does not have a firm standpoint in one of these fields but treating them as symmetrical and equal The belief that by giving art and business an equal weight the editors also create the opportunity to communicate to a wider audience and construct a path forward for art and business to coexist

Le cœur au travail Cécile Sarfati, Roland de Saint Etienne, 2016-12-01

Mais pourquoi

parler d'amour au travail Sujet risqué thématique inabordable voire même complètement taboue Les auteurs se sont emparés ici du sujet Ils nous questionnent après avoir interrogé les acteurs du monde du travail Parce que l'amour est présent partout sous de multiples facettes En prendre conscience en tenir compte dans notre façon de travailler dans nos rapports les uns avec les autres cela change la donne Les implications concrètes de l'amour dans notre milieu professionnel demeurent encore largement sous-estimées Le constat est sans appel il est primordial d'en parler Pour l'organisation de l'entreprise comme pour les professionnels qui y travaillent Un ouvrage surprenant sur l'implication des motions dans les relations professionnelles PROPOS DES AUTEURS Cécile Sarfati et Roland de Saint Etienne associent des expériences qui viennent ici se confronter et s'enrichir consultants coach psychologue praticienne en shiatsu Ils côtoient et accompagnent au quotidien les travailleurs les managers les quipes les dirigeants des organisations depuis plus de quinze ans Dans leurs vies professionnelles ils ont tous deux touché par le manque d'ouverture et d'acceptation des motions

Solidariedade e organizações Genauto Carvalho de França Filho, Philippe Eynaud, 2020-01-01 Este livro parte de um diagnóstico crítico sobre a dupla insustentabilidade que tem caracterizado a dinâmica do desenvolvimento das sociedades contemporâneas a crise ambiental e o aumento das desigualdades. Tais condições têm revelado um déficit de solidariedade tanto na relação dos seres humanos com a natureza quanto na relação das pessoas entre si assim que o livro funda sua reflexão num paradoxo importante relativo ao lugar da solidariedade nas sociedades atuais nunca antes houve tanta necessidade de fortalecê-la tanto no plano nacional quanto internacional e a reflexão a seu propósito jamais foi tão eludida, tão desconhecida para não dizer tão desacreditada. Apesar de salientar como a solidariedade foi invisibilizada na construção do conhecimento sobre as organizações e a gestão o livro explora a emergência de práticas organizacionais inovadoras visando responder aos dilemas dessa dupla insustentabilidade. São os desafios e potencialidades contidos numa outra economia que nos convida a refletir sobre uma outra gestão

Women Entrepreneurship in Family Business Vanessa Ratten, Leo-Paul Dana, Veland Ramadani, 2017-08-04 The purpose of this book is to promote discussion about educational objectives generally and objectives in the teaching of educational psychology in particular. To this end Part 1 contains a review of the literature concerned with these two subjects and also reports on investigations into the views of British students, teachers, college staffs and educational psychologists on the question of the objectives of educational psychology in teacher preparation. A comprehensive bibliography is provided. A further important section of Part 1 proposes a method of systematizing teaching objectives and suggests a heuristic device for the generation of objectives at different levels of conceptual generality and complexity of learning. An example of this model in the field of educational psychology is presented which illustrates the general approach to the generation of teaching objectives and proposes a specific approach to the production of teaching objectives in educational psychology. In Part 2 a selection of readings in the fields of objectives and educational psychology provides the reader with some of the key source material referred to in Part 1. As well as being a valuable and stimulating addition to the current debate on the specifying of educational objectives the arguments in this book about the role of educational psychology in teacher preparation raise some fundamental questions for those concerned with teacher education

Global Brands Teresa da Silva Lopes, 2007-09-24 In a world focused on

science and new technology brands help to explain why several of the world's multinational corporations have little to do with either. Rather, they are old firms with little critical investment in patents or copyrights. For these firms, the critical intellectual property is trademarks. Global Brands first published in 2007 explains how the world's largest multinationals in alcoholic beverages achieved global leadership, considers the predominant corporate governance structures for such firms, and looks at why these firms form alliances with direct competitors. Brands also determine the waves of mergers and acquisitions in the beverage industry. Global Brands contrasts with existing studies by providing a new dimension to the literature on the growth of multinationals through the focus on brands, using an institutional and evolutionary approach based on original and published sources about the industry and the firms. *Bulletin of the Atomic Scientists*, 1969-02. The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world. *Indigenous Experience Today* Marisol de la Cadena, Orin Starn, 2020-05-18. A century ago, the idea of indigenous people as an active force in the contemporary world was unthinkable. It was assumed that native societies everywhere would be swept away by the forward march of the West and its own peculiar brand of progress and civilization. Nothing could be further from the truth. Indigenous social movements wield new power, and groups as diverse as Australian Aborigines, Ecuadorian Quichuas, and New Zealand Maoris have found their own distinctive and assertive ways of living in the present world. *Indigenous Experience Today* draws together essays by prominent scholars in anthropology and other fields, examining the varied face of indigenous politics in Bolivia, Botswana, Canada, Chile, China, Indonesia, and the United States, amongst others. The book challenges accepted notions of indigeneity as it examines the transnational dynamics of contemporary native culture and politics around the world. **Resources in education**, 1991.
