collect the material into an appendix that can be read by students at their leisure The material in the text cannot be fully assimilated until one makes it Notes on their own by applying the material to specific problems Self discovery Problems is the best teacher and although they are no substitute for an inquiring mind problems that explore the subject from different viewpoints can often help the student to think about the material in a uniquely personal way With this in mind we have made problems an integral part of this work and have attempted to make them interesting as well as informative
