WARNING

Some .38 Special ammunition is being manufactured to specifically meet U.S. Treasury Department specifications for a more powerful cartridge. This so-called "Plus-P-Plus" or "Plus-Plus-P" ammunition generates pressures significantly in excess of industry standards and in excess of the pressures associated with commercially-available ammunition. Such pressures may exceed the margin of safety built into many handguns and could therefore be **DANGEROUS**. Some handguns manufactured in prior years, as well as some handguns presently produced, cannot safely fire this ammunition.

We understand that this ammunition is not being offered for sale commercially, that it is packaged in different boxes, that it is marked for law-enforcement use, and that it carries an identifying head-stamp on the cartridge case. At this time, "WCC + P + " is the stamping used by Winchester-Western Division of Olin, and "FC-LE" identifies such cartridges manufactured by the Federal Cartridge Company.

In the case of Smith & Wesson handguns chambered for .38 Special ammunition, this warning applies to all 5-shot, small-frame ("Model J") revolvers and to those 5-shot, medium-frame ("Model K") revolvers manufactured prior to 1958. The affected medium-frame revolvers can be identified by the absence of a "Model No." stamped inside the yoke-cut of the frame (i.e. the area which is exposed when the cylinder is in the open position).
