Transformational Human Resources Management in Zimbabwe Mervis Chiware, Bernard Nkala, Innocent Chirisa, 2022-09-19 This book is a stepping stone toward solving public sector human capital challenges in Zimbabwe as it equips human capital managers with solutions to key issues in the public sector. In Zimbabwe, the public sector human capital drives the economy as over half of the population access their services through public enterprises. Government is the major agent in economic and infrastructure development as well as the production of goods and services. However, Zimbabwe's public service is underperforming due to poorly motivated and managed employees who do not respond to the needs of its clients. This is a cause of concern as the public sector human capital is central to the overall performance of the public sector. Often, public sector managers and leaders lack advanced relevant and dynamic skills and knowledge to deal with human resource challenges within the New Public Management environment. It is critical for the public sector to transform its human resource management to suit twenty-first century needs. Effective human resource management in the public sector leads to economic growth and therefore the achievement of the Zimbabwe National Vision 2030. Therefore, this book serves as a guide for public sector managers and those directly or indirectly involved in human capital management. It provides in-depth knowledge and guidance in effective human capital management within the context of the public sector in Zimbabwe.

Directory of Pension Funds and Their Investment Managers, 2009 *Minerals Yearbook*, 2010 **Reparations to Africa** Rhoda E. Howard-Hassmann, 2018-04-13 What is the just measure of Western obligations to Africa? As Africans and their supporters mark the 200th anniversary of the abolition of the slave trade in the United States and Great Britain, the question becomes increasingly salient. Calls for reparations for the evils of slavery as well as for past colonial and current economic and political abuses can be heard across Africa and the African diaspora. Human rights scholar Rhoda E. Howard-Hassmann examines these calls for redress in *Reparations to Africa*. Her study analyzes the reparations movement from the perspectives of law, philosophy, political science, and sociology. While acknowledging the brutal background of the slave trade and colonialism and the mistreatment of the peoples of Africa, Howard-Hassmann finds that the complexity of this history, along with facts of the contemporary situation, weakens the case for financial compensation, although she does recommend acknowledgment of and apologies for some actions. The book not only provides a bold reckoning of the root causes, both internal and external, of African underdevelopment and unrest but also suggests alternative means for restorative justice and examines the role that institutions such as the International Criminal Court can play. By including the voices of 74 African academics, diplomats, and activists interviewed by Howard-Hassmann and Anthony P. Lombardo, *Reparations to Africa* makes a valuable contribution to the reparations debate. In an emotionally and politically charged postcolonial environment, this book serves as a judicious guide to the search for economic justice for Africans today and into the future. *Parliamentary Debates (Hansard)*.
