Written by senior examiners this full colour course companion helps you develop a thorough understanding of the essential mathematical skills required in A Level Physics. Helps you understand how and why mathematical formulae work in physics and gives you the techniques you need to answer the range of exam questions effectively. Provides lots of practical advice exemplified by numerous physics questions on how you can build the all important mathematical understanding which is of great importance in the A Level Physics exams. Topic based content starts from basic fundamentals and slowly builds skills and understanding using physics problems as the key worked examples throughout. Includes content on sinusoidal functions complicated graphs and complex numbers. Detailed explanations within numerous worked examples help you understand the thinking behind each mathematical technique and how and when to use them. Numerous test yourself questions provide plenty of practice and skill reinforcement. Data exercises provide practice in using techniques to handle data and plot results. Quickfire quizzes rapidly reinforce skills and understanding as a topic progresses. Pointers provide hints for refining exam technique and avoiding common mistakes. The material has been mapped against the mathematical requirements criteria for all A Level Physics courses from AQA Pearson OCR and WJEC CCEA the International Baccalaureate the Oxford University Physics Aptitude Test and the Cambridge Pre U.
