Zimsec June 2business Studies Exam Paper:

The Silence of Great Zimbabwe Joost Fontein, 2016-06-03 This book examines the politics of landscape and heritage by focusing on the example of Great Zimbabwe National Monument in southern Zimbabwe The controversy that surrounded the site in the early part of the 20th century between colonial antiquarians and professional archaeologists is well reported in the published literature Based on long term ethnographic field work around Great Zimbabwe as well as archival research in NMMZ in the National Archives of Zimbabwe and several months of research at the World Heritage Centre in Paris this new book represents an important step beyond that controversy over origins to focus on the site s position in local contests between and among individuals within the Nemanwa Charumbira and Mugabe clans over land power and authority To justify their claims chiefs spirit mediums and elders of each clan make appeals to different but related constructions of the past Emphasising the disappearance of the Voice that used to speak there these narratives also describe the destruction alienation and desecration of Great Zimbabwe that occurred and continues through the international and national archaeological and heritage processes and practices by which Great Zimbabwe has become a national and world heritage site today

Zimbabwe in Transition Timothy Murithi, Aquilina Mawadza, 2011 Zimbabwe s Transition to Democracy in the post independence era has been a very difficult one To date there have been a number of sustained efforts by various local regional and international actors to move Zimbabwe towards democracy as well as attempts to find a lasting solution to the political and economic crises that seriously affected the country s progress from the late 1990s However these attempts have been less successful mainly because Zimbabwe has complex political and economic problems with interlocking national regional and international political and economic dimensions rooted in both historical and contemporary factors and developments To understand the complexities of the challenges to Zimbabwe s transition to democracy as well as prospects for political change and democracy in the country Zimbabwe in Transition critically examines both the historical and contemporary dynamics shaping political and economic developments in the country taking into account voices from a broad spectrum of Zimbabwean society including civil society faith based communities the diaspora women community leaders the media youth and regional actors such as SADC and the AU Book jacket [The Ndebele Nation](#) Sabelo J.

Ndlovu-Gatsheni, 2009 **Zimbabwe** Suzanne Dansereau, Mario Zamponi, 2005 The two articles are revised versions of papers presented at the end of May 2004 to a Zimbabwe Conference at the Nordic Africa Institute which was co organized by the project Liberation and Democracy in Southern Africa LiDeSA They highlight current socio economic aspects of Zimbabwean society By doing so they raise relevant issues yet ones that have tended to be neglected given the almost exclusive concentration on political events While this is understandable the articles fill the gap in our knowledge and add insights into important sectors of society These include information on the Zimbabwean economy and the present constraints of the decline which together help us to understand the structural legacy that any future government will have to deal with

Report of the Auditor General on the Accounts of the Botswana Government for the Financial Year ...

Botswana,Botswana. Office of the Auditor General,1989 **The Service Sector and Economic Development in Africa**
Evelyn F. Wamboye,Peter Nyaronga,2018-09-04 The service sector accounts for a huge proportion of global employment and is the biggest driver of gross domestic product in developing nations Yet there has been little research uncovering its scope potential and implications on sustained and inclusive economic growth This is especially true for Africa which has seen a strong growth trajectory in recent years This book presents a new frontier of research offering insightful perspectives on the 21st century realities of the service sector and its effect on economic development in Africa The analysis presented here will be of relevance to academics and policymakers with an interest in Africa s role in the global economy **Innovation, Regional Integration, and Development in Africa** Samuel Ojo Oloruntoba,Mammo Muchie,2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post

colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels. However, the results of both national and regional efforts at advancing development on the continent have been mixed. Although the importance of agglomeration and fusion of institutions have long been recognized as possible paths to achieving economic development in Africa, the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy, mobility of labor, educational policy, biotechnology, regional legislation, manufacturing, innovation, and science and technology. This volume investigates the link between innovation, regional integration, and development in Africa, arguing that the immediate and long-term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities. The book is divided into four parts. Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa. Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa. Part III of the book deals with sectoral issues on innovation and integrated development in Africa. Part IV sets the future research on innovation, regional integration, and development in Africa. Combining theoretical analysis and a comparative interdisciplinary approach, this volume is appropriate for researchers and students interested in economic development, political economy, African studies, international relations, agricultural science, and geography, as well as policymakers in regional economic communities and the African Union.

The Political Economy of Xenophobia in Africa Adeoye O. Akinola, 2017-11-13. This book analyzes the phenomenon of xenophobia across African countries. With its roots in colonialism, which coercively created modern states through border delineation and the artificial merging and dividing of communities, xenophobia continues to be a barrier to post-colonial sustainable peace and security and socio-economic and political development in Africa. This volume critically assesses how xenophobia has impacted the three elements of political economy: state, economy, and society. Beginning with historical and theoretical analysis to put xenophobia in context, the book moves on to country-specific case studies discussing the nature of xenophobia in Nigeria, South Africa, Zambia, Ghana, and Zimbabwe. The chapters furthermore explore both violent and non-violent manifestations of xenophobia and analyze how state responses to xenophobia affect African states' economies and societies, especially in those cases where xenophobia has widespread institutional support. Providing a theoretical understanding of xenophobia and proffering sustainable solutions to the proliferation of xenophobia in the continent, this book is of use to researchers and students interested in political science, African politics, peace studies, security, and development, economics, as well as policy makers working to eradicate xenophobia in Africa.
