The Law of Cryonics Pierre de Gioia Carabellese, Camilla Della Giustina, 2024-03-19 This book through the lens of interdisciplinary legal analysis draws a subtle balance between bioethics and financial regulation with the latter playing an unexpectedly crucial role in the way life may potentially be governed The legal topic of human preservation or cryoconservation was initially developed in the United States in the case of *Donaldson v van de Kamp* More recently the subject arose in Europe as a result of a decision of the High Court Family Division London This new theme of cryoconservation has unfolded through multifaceted forms including its impact on regulation In an area that may at least prima facie be regarded as belonging to the traditional realm of medical law the findings presented here suggest that its potential has strong economic implications The work argues that it is necessary also to look at this subject from a more interdisciplinary perspective drawing a fil rouge between two otherwise seemingly opposing areas of law medical law and financial regulation The legal framework draws on the Anglo American and the United Kingdom in particular along with civil law analysis from Italy The work will be of interest to researchers and academics in the areas of medical law legal philosophy financial law property law and insurance law

What is The Family of Law? Alan Brown, 2019-02-07 This book argues that the legal understanding of family in the UK continues to be underpinned by the idealised image of the nuclear family premised upon the traditional gendered roles of father as breadwinner and mother as homemaker This examination of the law's model of the family has been prompted by the substantial reforms that have taken place in family law in recent decades and the significant evolution in social attitudes and familial practices that has occurred in parallel Throughout the book the influence of the nuclear family is noted in several different contexts various specific legal definitions of family the legal regulation of adult conjugal relationships the attribution of legal parenthood and the construction of the role of the parent within the law Ultimately this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model there has not as yet been any fundamental alteration of the underpinning concept of the nuclear family itself This book concludes by considering the possibilities offered beyond the nuclear family exploring the reconceptualising of the legal understanding of family around alternative and potentially radical models of family

Home Front Heroes Elizabeth Abele, 2013-12-04 This book traces the effects of the feminist and civil rights movements in the construction of Hollywood action heroes Starting in the late 1980s action blockbusters regularly have featured masculine figures who choose love and community over the path of the stoic loner committed solely to duty The American heroic quest of the past 25 years increasingly has involved a reclamation of home creating a place for the Hero at the hearth part of a more intimate community with less restrictive gender and racial boundaries The author presents pieces of contemporary popular culture that create the complex mosaic of the present day

American heroic ideal Hollywood popular films are examined that best represent the often painful shift from traditional heroic masculinity to a masculinity that is less exceptional and more vulnerable.
